Ukraine and the Empire of Capital Yuliya Yurchenko,2017-12-20 Since 1991 nominally independent Ukraine has been in turmoil with the Orange Revolution and the Maidan protests marking its most critical moments Now its borders are threatened and the civil unrest and armed conflict continue to destabilise the country In order to understand these dramatic events Yuliya Yurchenko looks to the country s post Soviet past in this ambitious analysis of contemporary Ukrainian political economy Providing distinctive and unexplored reflections on the origins of the conflict Yurchenko unpacks the four central myths that underlie Ukraine s post Soviet reality the myth of transition the myth of democracy the myth of two Ukraines and the myth of the other In doing so she sheds light on the current intensification of class rivalries in Ukraine the kleptocracy resource wars and analyses existing and potential dangers of the rightwing shift in Ukraine s polity stressing a historic opportunity for change Critiquing the concept of Ukraine as transition space she provides a sweeping analysis which includes the wider neoliberal restructuring of global political economy since the 1970s with particular focus on Ukraine s relations with the US the EU and Russia This is a book for those wanting to understand the current conflict as a dangerous product of neoliberalism of the empire of capital **Fascism** Dave Renton,1999-04-20 A critical assessment of the current liberal theories of fascism that have emerged since the 1980s and 1990s **Global Democracy and Sustainable Jurisprudence** Walter F. Baber,Robert V. Bartlett,2009-06-12 A proposal for a philosophical foundation and a realistic deliberative mechanism for creating a transnational common law for the environment In *Global Democracy and Sustainable Jurisprudence* Walter Baber and Robert Bartlett explore the necessary characteristics of a meaningful global jurisprudence a jurisprudence that would underpin international environmental law Arguing that theories of political deliberation offer useful insights into the current democratic deficit in international law and using this insight as a way to approach the problem of global environmental protection they offer both a theoretical foundation and a realistic deliberative mechanism for creating effective transnational common law for the environment Their argument links elements not typically associated abstract democratic theory and a practical form of deliberative democracy the legitimacy imparting value of deliberative democracy and the possibility of legislating through adjudication common law jurisprudence and the development of transnational environmental law and conceptual thinking that draws on Deweyan pragmatism Rawlsian contractarianism Habermasian

critical theory and the full liberalism of Bohman Gutmann and Thompson Baber and Bartlett offer a democratic method for creating interpreting and implementing international environmental norms that involves citizens and bypasses states an innovation that can be replicated and deployed across a range of policy areas Transnational environmental consensus would develop through a novel model of juristic democracy that would generate legitimate international environmental law based on processes of hypothetical rule making by citizen juries This method would translate global environmental norms into international law law that unlike all current international law would be recognized as both fact and norm because of its inherent democratic legitimacy **Teacher for Justice** Heather Goodall, Helen Randerson, Devleena Ghosh, 2019-08-26

Teacher for Justice is a major contribution to the history of the women s movement working class activism and Australian political internationalism But it is more than this By focusing on the life of Lucy Woodcock an unrecognised and under researched figure this book rewrites the history of twentieth century Australia from the perspective of an activist who challenged conventions to fight for gender race and class equality exploring the complex and multi layered intersections of these aspects It explores Woodcock s personal relationships and the circles she mixed in and the friendships she forged as well as the conventions she challenged as a single woman in possibly a same sex relationship The book makes a key contribution to the history of progressive education and the experience of women teachers Above all it charts the life of a transnational figure who made connections globally and in particular with refugees and with women in India and the Asian region It is a detailed thoroughly researched and richly textured history which places Woodcock within the context of the times in which she lived Joy Damousi Professor of History University of Melbourne Meet Lucy Woodcock a complex undaunted woman in a tough and changing world From her role as a public school principal in Depression and wartime to her union and feminist organising to her transnational engagements for peace this clear and thoughtful book brings to life forgotten forms of activism It s the gripping story of how Lucy navigated the minefields of gender class race and coloniality to change her world Raewyn Connell Professor Emerita University of Sydney Just over a century ago the last of the pupil teachers Lucy Woodcock co founded the NSW Teachers Federation So many of the principles and traditions that underpin our union today can be traced back to the lifelong work of Lucy Woodcock She fought for the industrial rights of teachers deep in the knowledge of the broader social and economic context in which she lived and worked Too often the role of working class women whose influence is profound is ignored This biography installs Lucy Woodcock into her rightful place as pivotal player in the history of twentieth century Australia Maurie Mulheron President NSW Teachers Federation A fascinating history of a fascinating woman Lucy s interests were so broad and so modern equal pay racism internationalism Indigenous rights and anti war struggles were all part of Lucy s world She had a vision beyond nationalism championed the cause of world peace when peace was being treated as a dirty word and saw women as global citizens Lucy was one of the heroes of our disgracefully unfinished Equal Pay struggle Hon Dr Meredith Burgmann anti racism and peace activist former

Lee, 2008-01-28 Stephen Lee charts the most commonly encountered topics of nineteenth and twentieth century European history from the origins of the French Revolution through the social and political reforms of the last two centuries to the present Dignity in Adversity Seyla Benhabib, 2013-05-20 The language of human rights has become the public vocabulary of our contemporary world Ironically as the political influence of human rights has grown their philosophical justification has become ever more controversial Building on a theory of discourse ethics and communicative rationality this book addresses the politics and philosophy of human rights against the background of the broader social transformations that are shaping the modern world Rejecting the reduction of international human rights to the Trojan horse of a neo liberal empire's bid for world power as well as the conservative objections to legal cosmopolitanism as encroachments upon democratic sovereignty Benhabib develops two key concepts to move beyond these false antitheses International human rights norms need contextualization in specific polities through processes of what she calls democratic iterations Furthermore such norms have a jurisgenerative power in that they enable new actors to enter fields of social and political contestation they promote new vocabularies for public claim making and
