Office of Federal Protection and Safety,1990 **Contract Guard Information Manual** United States. General Services Administration. Office of Physical Security and Law Enforcement,1991 *Contract Guard Information Manual* United States. General Services Administration. Office of Federal Protection and Safety,1984 Security Guard Manual , The Role of the Security Officer Michael James Jaquish,2006-09 Security is mostly a superstition It does not exist in nature nor do the children of men as a whole experience it Avoiding danger is no safer in the long run than outright exposure Life is either a daring adventure or nothing Helen Keller Danger is around us all the time If we feel secure it is because we have chosen to ignore the threat or we feel we have taken steps to reduce the threat Everything we do however is merely a deterrent There are no guarantees Threat is always present It is simply a matter of degree Threats come in many forms and they all eat away at our fundamental sense of security Personal and professional security focuses on awareness and preparation Knowledge is power Those who are aware and prepared are far more likely to survive sudden unexpected threats Luck as they say is when preparation meets opportunity What does it take to be a prepared security professional The terrorist attacks on United States soil on September 11 2001 illustrate how crucial it is that security be prepared and effective Those attacks happened because we let our guard down and the ripple effects have altered our society forever How great a price must we pay in terms of reduced civil liberties to feel safe now Such questions may be difficult to define but the fundamental duties and responsibilities of security officers are not If we expect to overcome threats we must all be on the same page That is why this book is an important tool in societys ongoing mission to raise the bar in the security profession Preparation requires training and the journey begins here Michael James Jaquish **Armed Security Guard Training Manual** Bernard Martinage,2014-06-01 All states have different regulations laws licensing and requirements for security guards This is especially true regarding the use of deadly force power of detain arrest and many other legal aspects of being a security guard It is the responsibility of the school instructor to know the laws relating to security guard activities for the State County or City in which they train and for which they train These laws and regulations are easy to find and free to print because they are of the public domain While all states may have different laws almost all states includes in their armed security guard training and educational requirements firearm knowledge and technical skills so the armed security guard can effectively use a firearm in the defense of self and others This Armed Security Guard Training Manual was developed to meet the most stringent standard It represents 40 hours of study materials It also includes 10 hours legal section that discusses Weapons and Firearms and the use of deadly force These 10 hours of the curriculum are modeled after Florida laws which regulates heavily security guard activities This section constitutes an excellent moral guideline to work from BUT it is your responsibility to research and teach the law of your state county city as well as ensure that you take the steps you need to

meet your state's licensing requirements if there are any Last but not least this kit as you see it is what we use every day to train our pupils at Safe N Secure **Effective Security Officer's Training Manual** Ralph Brislin, Ralph F.
