exemplary library service to individuals in prison or jail by applying the public library model when working with inmate populations. These authors, a jail librarian and an outreach librarian, offer a wealth of insights and ideas answering questions about facilities and equipment, collection development, services and programming, computers and the Internet, managing human resources including volunteers and inmate workers, budgeting and funding, and advocacy within the facility and in the community. The approach is practical and down to earth with numerous examples and anecdotes to illustrate concepts. More than 2 million adults are serving time in correctional facilities and hundreds of thousands of youth are in juvenile detention centers. There are more than 1,300 prisons and jails in the United States and about a third as many juvenile detention centers. Inmates as much or more than the general population need information and library services. They represent one of the most challenging and most grateful populations you as a librarian can work with. This book is intended to aid librarians whose responsibilities include serving the incarcerated, either as full-time jail or prison librarians or as public librarians who provide outreach services to correctional facilities. It is also of interest to library school students considering careers in prison librarianship. The authors, a jail librarian and an outreach librarian, show how you can apply the public library model to inmate populations and provide exemplary library service. They offer a wealth of ideas answering questions about facilities and equipment, collection development, services and programming, computers and the Internet, managing human resources including volunteers and inmate workers, budgeting and funding, and advocacy within the facility and in the community. The approach is practical and down to earth with numerous examples and anecdotes to illustrate ideas.

The American Prison
Lynne Goodstein, Doris L. MacKenzie, 2013-03-08

Despite the dire forecasts of others who had themselves edited books, we proceeded with the project of an edited volume on the American prison, although with more than a little trepidation. We had heard the horror stories of authors turning in their chapters months or years late or never at all, of publishers delaying publication dates of volumes that read more like patchwork quilts than finely loomed cloth. As if to prove the others wrong, our experience in editing this volume has been marvelous, and we think the volume reflects this. Most likely the success of our experience and of the volume stems from two elements: first, the professionalism and commitment of the authors themselves, and second, the fact that early in the life of this volume, most of the authors convened for a conference to critique and coordinate the chapters. This book brings together an illustrious group of criminologists and correctional scholars who wrote chapters explicitly for this volume. Cohesiveness was furthered by the charge we gave to each author: to 1) present the major issues, 2) review the empirical research, and 3) discuss the implications of this work for present and future correctional policy. The goal of this project was to examine the major correctional issues facing prison systems. The chapters scrutinize the issues from the perspective of the system and the individual, from theory to practical and daily management problems, from legal to psychological concerns.
