business behind the meat vegetables grains and milk most Americans eat every day including some of our favorite and most respected organic and health conscious brands Hauter also pulls the curtain back from the little understood but vital realm of agricultural policy showing how it has been hijacked by lobbyists driving out independent farmers and food processors in favor of the likes of Cargill Tyson Kraft and ConAgra Foodopoly shows how the impacts ripple far and wide from economic stagnation in rural communities to famines overseas and argues that solving this crisis will require a complete structural shift a change that is about politics not just personal choice **The Cumulative Daily Digest of Corporation News** ,1927
