Dostoyevsky,2025-02-26 Theosophy is a religion established in the United States during the late 19th century It was founded  
primarily by the Russian Helena Blavatsky and draws its teachings predominantly from Blavatsky s writings Categorized by  
scholars of religion as both a new religious movement and as part of the occultist stream of Western esotericism it draws  
upon both older European philosophies such as Neoplatonism and Asian religions such as Hinduism and Buddhism At a  
meeting of the Miracle Club in New York City on 7 September 1875 Blavatsky Olcott and Judge agreed to establish an  
organisation with Charles Sotheran suggesting that they call it the Theosophical Society Prior to adopting the name  
Theosophical they had debated various potential names among them the Egyptological Society the Hermetic Society and the  
Rosicrucian Society The term was not new but had been previously used in various contexts by the Philaletheians and the  
Christian mystic Jakob B hme Etymologically the term came from the Greek theos god s and sophia wisdom thus meaning god  
wisdom divine wisdom or wisdom of God The term theosophia appeared in both Greek and Latin in the works of early church  
fathers as a synonym for theology In her book *The Key to Theosophy* Blavatsky said that the term Theosophy had been coined
