South Sudan Skills Story Lawrence M. Tombe, 2017-09-28 The South Sudan Skills Story is an account about manpower and education development in South Sudan a narrative that includes efforts exerted in attainment of the much needed workforce for fuelling the countrys economy now fatally impacted by the ongoing internal strife Prior to escalation of the armed conflict that broke out in December 2013 hardly four years after the country gained its sovereignty on July 9 2011 the new nation was on course in setting up its new education system and basis of sustainable human development now shattered by the vicious war The conflict has eroded the countrys human potential through loss of life skills wastage and extreme brutalities perpetrated against citizens by the war drivers The education quandary is compounded by displacement of over 3 million people from their homes and localities a dire situation that has caused severe food insecurity affecting over 7 5 million people With over 2 million children forced out of school particularly in the most conflict affected regions of South Sudan including over 1 4 million forced out of the country as refugees to neighbouring countries it means that one in every three children in the country is out of school The scale and magnitude of the unending human dispersal has severely curtailed South Sudans ability to provide education to all its citizens The once

adopted slogan of bringing education to all in the country is now a far cry as the new nation heads to total collapse if the conflict is not halted The South Sudan Skills Story urges the leaders of South Sudan who are proponents of the conflict to rise above self serving political cleavages to stop the war for peace so that all the citizens are availed the opportunity to realize their fullest potential for development of the country The narrative concludes that the people of this young nation will remain one of the most undereducated populations in the world as long as the legacy of war violence and impunity prevails in the country

Development Programmes Estimates of Expenditure Namibia,2011 Perspectives on Teacher Education in the Digital Age Jako Olivier,Avinash Oojorah,Waaiza Udhin,2022-08-13 This book relates to the experiences and initiatives of teacher education institutions in the Southern Africa region to empower teachers to cope with teaching and learning in the digital age The book covers the impacts of digital technologies on the teaching and learning process Online and blended learning digital pedagogies the design of curricula and learning experiences to address the learning needs and profile of learners are considered in this book Furthermore the way in which pre and in service teachers learn about alternative modes of assessment will also be considered In this regard innovative concepts such as renewable and situated assessments multimodal assessments digital storytelling and e portfolios amongst others were explored *Decolonising Media and Communication Studies Education in Sub-Saharan Africa* Selina Linda Mudavanhu,Shepherd Mpfu,Kezia Batisai,2023-10-27 The book provides insights on decolonising media and communication studies education from diverse African scholars at different stages of their careers These academics located on the continent and in the diaspora share an interest in decolonising higher education broadly and media and communication studies teaching and learning in particular Although many African countries gained flag independence from different European colonial powers between the 1950s and the 1970s this book argues that former colonies remain ensnared in a colonial power matrix Many African universities did not jettison ways of teaching and learning established during colonialism and even those journalism communication and media studies training programmes which were established after the attainment of flag independence did not place decolonial agendas at the front and centre when setting them up Starting with big picture thematic questions around decolonisation the book goes on to consider what the implications of change would be for students and instructors before reflecting on how far it is possible to decolonise curricula and syllabi and what this might look like in practice across a range of subject areas and country contexts Overall this book presents a nuanced picture of what a decolonised media and communication studies education could look like in sub Saharan Africa This book is essential for researchers in Africa in disciplines such as media and communication studies journalism film studies cultural studies and higher education studies More broadly the concepts and ideas on decolonising teaching and learning discussed in the book are relevant to instructors in any discipline who are interested in doing the decolonial work of contesting coloniality
