Quizlet Technical Communication Today 4th Edition:

Technical Communication Today Richard Johnson-Sheehan, 2007 *Technical Communication Today* remains the only text to fully centralize the computer in the technical workplace presenting how it is used throughout today's communication process. The text is based on a solid core of rhetorical principles. Clear instruction not only describes technical documents but it guides the user through the activity of producing them. *Technical Communication Today* foregrounds computers as a thinking tool helping communicators to draft and design documents, prepare material for print and Web publication, and make oral presentations. It more accurately reflects the modern day computer centered technical workplace. *Technical Communication Today* epitomizes the shift in technical communication from literal linear created to visual spatial created documents. This evolution which has been provoked by the ubiquity of the computer as a communication tool is changing fundamental writing and reading processes. The text has been designed using the idea of chunking where readable portions of text are combined with graphics. Not only does this concept facilitate learning but it models the way today's technical documents should be designed. Its presentation of teaching readers how to write integrates a new awareness of how documents are read by raiding for the information needed. The author wrote the text with the presumption that users are researching, organizing, drafting, designing, and revising directly on their computer screens. By mirroring these processes in its content and structure, *Technical Communication Today* offers a higher level of accessibility for readers.

Technical Communication Today, Books a la Carte Edition Richard Johnson-Sheehan, 2014-08-05 **ALERT** Before you purchase, check with your instructor or review your course syllabus to ensure that you select the correct ISBN. Writers use their computers to help them think, research, compose, design, and edit. Not only is *Technical Communication Today* firmly rooted in core rhetorical principles but the text also presents computers as thinking tools that powerfully influence how we develop, produce, design, and deliver technical documents and presentations. *Technical Communication Today* speaks to today's students and how they expect to learn information. Instructional narrative is chunked so that readable portions of text are combined with graphics. This presentation facilitates learning and models the way today's technical documents should be designed. Additionally, the chunked presentation integrates an awareness of how documents are read, often raided by readers seeking the information they need. By mirroring

these processes in its content and structure Technical Communication Today offers readers a higher level of accessibility
