

Resident Assistant application essay

By: Khash-Erdene Ganbat

As a second-year-student that has been engaged in plethora of events on campus, I believe I am getting the best out of my college experience and in the same time I am giving back to my community. The opportunity to become Resident Assistant will enable me to develop my skills and to become a successful role model, listener and an advisor. Additionally, it will equip me with the necessary knowledge and interpersonal competence, so that I can become a conflict solver, caregiver and event organizer. Being an RA will be a corner stone in my personal development, because it will prepare me for my future career as a business person, as well as for the teamwork and interactions with my future fellow workers. As part of the RA team, I will become more communicative, organized, punctual and with great time management. I am just an ordinary student, with a primary goal in my life to gain a lot of experience and knowledge. The only constant thing in my life is self-improvement. Furthermore, I want to constantly grow and live as a better human being. Being a Resident Assistant has been my dream ever since I became part of this university. One of the reasons for this is that I will be someone to whom one can count on, someone who can tell others about everything they need, just like a parent. As I build my skills to help those with whom I communicate and give advice to, I will be able to exchange ideas and to effectively communicate with my fellow students and to break down barriers of misunderstanding, and to create healthy yet active relationships with one another. Moreover, I will bring more social activities and events that will provide them with the essential information that they exactly lack, as well as concentrate on their academic well-being. Below I will describe few of the ideas that I have in mind about how to improve the student life on campus.
