September in den US Medien und der Populärkultur omnipresent. Selten kommt die arabische Minderheit in den USA selbst zu Wort. Dieses Buch untersucht deshalb den literarischen Selbstausdruck arabisch-amerikanischer Autorinnen und Autoren. So wird sichtbar, was es bedeutet, im eigenen Land zum Feind geworden zu sein. Dabei wird auch die kritische Auseinandersetzung mit patriarchalen Strukturen und religiösem Eifer in der arabisch-amerikanischen Community und der arabischen Welt einbezogen. **Coming Out Queer Online** Patrick M. Johnson, 2020-08-03 The Digital Closet: LGBT Q Identities and Affective Politics in a Social Media Age discusses how LGBT Q individuals occupy a precarious space within society as a marginalized community in the United States. They are afforded representation in some venues yet are often invisible. Through social media, LGBT Q individuals have sought new ways to forge communities and increase their visibility. This rise in visibility afforded individuals means to seek out and distribute information to help in the coming out process. Combining archival research, observation, interviews, and visual discourse analysis of social media feeds, Patrick Johnson examines the role social media plays in expressions of LGBT Q politics, culture, and coming out. Despite the messages not having changed fundamentally, the improved access to LGBT Q stories has amplified the ones that are sent. Johnson argues that this is positive in acting as intervention for LGBT Q suicide rates, hate crimes, and discrimination from the outside. However, the author also contends that it has vastly re-centered and prioritized white cisgender masculinity, obscuring other stories and creating potentially dangerous environments for POC women, trans individuals, and gay men who do not meet this high standard of masculinity. Scholars of gender studies, media studies, and queer theory will find this book particularly interesting.

The editors frame the volume around the humanistic social sciences, using the term to highlight the historical and social contexts under which expressive cultural forms and archival records are created. *Critical Dialogues in Latinx Studies* masterfully sheds light on the diversity and complexity of the everyday lives of Latinx populations, the political-economic structures that shape enduring racialization, and cultural

stereotyping and the continuing efforts to carve out new lives as diasporic transnational global and colonial subjects

Reorienting Hong Kong's Resistance Wen Liu, JN Chien, Christina Chung, Ellie Tse, 2022-01-27 This book brings together writing from activists and scholars that examine leftist and decolonial forms of resistance that have emerged from Hong Kong's contemporary era of protests. Practices such as labor unionism, police abolition, and justice struggles and other radical expressions of self-governance may not explicitly operate under the banners of leftism and decoloniality. Nevertheless, examining them within these frameworks uncovers historical transnational and prefigurative sightlines that can help to contextualize and interpret their impact for Hong Kong's political future. This collection offers insights not only into Hong Kong's local struggles but their interconnectedness with global movements as the city remains on the frontlines of international politics.
