**INTRODUCTION**

Your new Radio Shack PRO-51 200-Channel Direct Entry Programmable Scanner lets you in on all the action! This scanner gives you direct access to over 20,000 exciting frequencies that include the police department, fire department, ambulance services, amateur radio, and transportation services. You can select up to 200 channels for your scanner to scan and you can change your selections at any time.

The secret to your scanner's ability to scan so many frequencies is its custom-designed microprocessor — a tiny, built-in computer. Your scanner also has these special features:

**Band Search** — lets your scanner search the frequencies allocated to the air traffic, fire, marine, or weather services, so you can listen to the services you prefer, even if you do not know the frequencies.

**2-Second Scan Delay** — delays the scanning mode for 2 seconds before moving to another channel, so you can hear more replies.

**Memory Backup** — keeps the channel frequencies stored in memory for up to 3 days during power loss.

**Lock-Out Function** — keeps channels you select from being scanned.

**Priority Channel** — checks your most important channel every 2 seconds so you don't miss important calls on the channel you specify.

**Ten Channel-Storage Banks** — lets you store 20 channels in each of 10 banks to group frequencies so you can easily identify calls.

**Monitor Memories** — let you store up to 10 channels you locate during a frequency search which you can then transfer to permanent memory.

Your scanner can receive all of these bands:
