

The Ultimate Tool Of the Trade.

If you want to do your own Desktop Publishing you need a Macintosh™ computer and a LaserWriter® printer.

They are, after all, the standard tools of the trade. But if you're truly serious about Desktop Publishing, you need the ultimate tool of the trade: the Radius Full Page Display™ (FPD).

With an FPD you can see a full 8½" x 11" page at one time. Without scrolling through or reducing your document. Which means you work a lot faster. And now, on your SE or Macintosh II, you can pan across two pages at a time.

The FPD's 640 x 864 pixel screen provides a flicker-free, stable, virtually paper-like page and a rich high-detail picture. Although its screen is 8½" x 11", its footprint is only 11" x 14", which means the FPD gives you a bigger screen, not a smaller desk.

Easily installed on a Macintosh Plus, SE or Macintosh II, the Radius Full Page Display is compatible with all standard Macintosh software. Which means your software investment is safe. In fact, it's actually more valuable.

The FPD is not a replacement for the screen in your Macintosh. It's an enhancement. Because the FPD actually works in combination with the internal screen in your Macintosh.

But, no matter what application you're working in, you'll work faster, smarter and more productively. And print a lot less because you can see full pages as you design them.

With PageMaker, you can use the FPD for page layouts and the Macintosh screen for your tools.

In Microsoft® Excel, you can place a spreadsheet on your FPD and a linked graph on your Macintosh screen.

The Radius Full Page Display has achieved

critical acclaim from both enthusiasts and the trade press.

If you review the reviews of the experts, editors and evangelists of the Desktop Publishing industry, almost to a person, the Radius Full Page Display is regarded as one of the major hardware advancements in Desktop Publishing.

The FPD was designed by key members of the original Macintosh team. It preserves the design integrity of your Macintosh.

For serious Desktop Publishing, it is the ultimate tool of the trade.
