Tippet, Todd M. Milford,2019-07-01 This book offers a meso level description of demographics science education and science teacher education Representing all 13 Canadian jurisdictions the book provides local insights that serve as the basis for exploring the Canadian system as a whole and function as a common starting point from which to identify causal relationships that may be associated with Canada s successes The book highlights commonalities consistencies and distinctions across the provinces and territories in a thematic analysis of the 13 jurisdiction specific chapters Although the analysis indicates a network of policy and practice issues warranting further consideration the diverse nature of Canadian science education makes simple identification of causal relationships elusive Canada has a reputation for strong science achievement However there is currently limited literature on science education in Canada at the general level or in specific areas such as Canadian science curriculum or science teacher education This book fills that gap by presenting a thorough description of science education at the provincial territorial level as well as a more holistic description of pressing issues for Canadian science education **The New Immigration Federalism** Pratheepan Gulasekaram,S. Karthick Ramakrishnan,2015-09-15 Since 2004 the United States has seen a flurry of state and local laws dealing with unauthorized immigrants Though initially restrictionist these laws have recently undergone a dramatic shift toward promoting integration How are we to make sense of this new immigration federalism What are its causes And what are its consequences for the federal state balance of power In *The New Immigration Federalism* Professors Pratheepan

Gulasekaram and S Karthick Ramakrishnan provide answers to these questions using a mix of quantitative historical and doctrinal legal analysis. In so doing they refute the popular demographic necessity argument put forward by anti immigrant activists and politicians. Instead they posit that immigration federalism is rooted in a political process that connects both federal and subfederal actors the Polarized Change Model. Their model captures not only the spread of restrictionist legislation but also its abrupt turnaround in 2012 projecting valuable insights for the future.

Wallace, 2024-04-23 Finalist 2025 Scholarly Writing Award Saskatchewan Book Awards The French philosopher mystic activist Simone Weil 1909-1943 has drawn both passionate admiration and scornful dismissal since her early death and the posthumous publication of her writings She has also provoked an extraordinary range of literary writing focused on not only her ideas but also her person novels nonfiction and especially poetry Given the challenges of Weil's ethic of self-emptying attention what accounts for her appeal especially among women writers This book tells the story of some of Weil's most dedicated and at points surprising literary conversation partners exploring why writers with varied political and religious commitments have found her thought and life so resonant Cynthia R. Wallace considers authors who have devoted decades of attention to Weil such as Adrienne Rich Annie Dillard and Mary Gordon and who have written poetic sequences or book length verse biographies of Weil including Maggie Helwig Stephanie Strickland Kate Daniels Sarah Klassen Anne Carson and Lorri Neilsen Glenn She illuminates how writing to of and in the tradition of Weil has helped these writers grapple with the linked harms and possibilities of religious belief self-giving attention and the kind of moral seriousness required by the ethical and political crises of late modernity The first book to trace Weil's influence on Anglophone literature *The Literary Afterlives of Simone Weil* provides new ways to understand Weil's legacy and why her provocative wisdom continues to challenge and inspire writers and readers
