6

Exporting the Data

Finally, the recognized text is exported into a digital format, such as a Word document or Excel spreadsheet. This digital data can then be easily searched, edited, and managed.

5

Verification & Editing

The recognized text is then verified for accuracy. Any errors or inconsistencies are corrected at this stage. This step may involve some manual intervention.

Letters & Words Grouping

The matched characters then are grouped into words, and then into sentences, to form a digital document that mirrors the original source.
