Waddicor, 2012-12-06 In the last hundred years the philosophy of natural law has suffered a fate that could hardly have been envisaged by the seventeenth and eighteenth century exponents of its universality and eternity it has become old fashioned The positivists and the Marxists were happy to throw eternal moral ity out of the window confident that some magic temporal harmony would eventually follow Progress in by the front door Their hopes may not have been fully realized but they did succeed in discrediting natural law What is often not appreciated is the extent to which we have adopted the tenets of the philosophy they despised borh in the field of politics and in the field of personal and social ethics which Barbeyrac called la science des mreurs and which the positivists re christened social science Consequently though we live in a world whose freedom such as it is is largely a result of the popularization of the philosophy of natural law and whose conscious and unconscious standards such as they are are a result of that philosophy as it became combined with Christianity the doctrine of natural law is itself for gotten In view of the oblivion into which it has fallen natural law is a concept which means little to the average reader All too often Montesquieu scholars have traded on this oblivion in order to give an exaggerated picture of his originality *A Catalogue of the Library of Bowdoin College* Bowdoin College. Library, 1863 *A Catalogue of the Entire Libraries of Charles Hedges, Esq. Late of the Garter-House, Windsor-Castle, Containing a Fine Collection of Classics, and Books on the Belles-lettres; and of the Rev. William Cole, the Eminent Antiquary, Late of Milton, Near Cambridge, Comprising Books on All Subjects of English Antiquity, Biography, Monastic and Ecclesiastical History, and a Few Rare Articles of Italian Literature:* Benjamin White, 1784 *The Books that Made the European Enlightenment* Gary Kates, 2022-08-11 In contrast to traditional Enlightenment studies that focus solely on authors and ideas Gary Kates employs

a literary lens to offer a wholly original history of the period in Europe from 1699 to 1780 Each chapter is a biography of a book which tells the story of the text from its inception through to the revolutionary era with wider aspects of the Enlightenment era being revealed through the narrative of the book's publication and reception Here Kates joins new approaches to book history with more traditional intellectual history by treating authors publishers and readers in a balanced fashion throughout Using a unique database of 18th century editions representing 5 000 titles the book looks at the multifaceted significance of bestsellers from the time It analyses key works by Voltaire Adam Smith Madame de Graffigny Jean Jacques Rousseau and David Hume and champions the importance of a crucial innovation of the age the rise of the erudite blockbuster which for the first time in European history helped to popularize political theory among a large portion of the middling classes Kates also highlights how when and why some of these books were read in the European colonies as well as incorporating the responses of both ordinary men and women as part of the reception histories that are so integral to the volume
