Economy from Below Rob Knowles, 2017-07-05 Communitarian anarchism is a generic form of socialism that denies the need
for a state or any other authority over the individual from above and which requires absolute belief that the individual cannot
exist outside of a community of others This book suggests that the communitarian anarchists of the nineteenth century
developed and articulated a distinct tradition of economic thought The period of this study begins with the first major writing
of the French communitarian anarchist Pierre Joseph Proudhon in 1840 and ends with the temporary burial of anarchist
theorizing at the beginning of the First World War in 1914 However he tradition of communitarian anarchist economic
thought did not end in 1914 The economic thought explored in this book provides a fresh perception of the fragmentation
evident in many societies today especially where there is a substantial informal economy **Œuvres complètes** Albert
