*The Health Gap* Michael Marmot,2015-09-10 Punchily written He leaves the reader with a sense of the gross injustice of a world where health outcomes are so unevenly distributed Times Literary Supplement Splendid and necessary Henry Marsh author of Do No Harm New Statesman There are dramatic differences in health between countries and within countries But this is not a simple matter of rich and poor A poor man in Glasgow is rich compared to the average Indian but the Glaswegian s life expectancy is 8 years shorter The Indian is dying of infectious

disease linked to his poverty the Glaswegian of violent death suicide heart disease linked to a rich country's version of disadvantage In all countries people at relative social disadvantage suffer health disadvantage dramatically so Within countries the higher the social status of individuals the better is their health These health inequalities defy usual explanations Conventional approaches to improving health have emphasised access to technical solutions improved medical care sanitation and control of disease vectors or behaviours smoking drinking obesity linked to diabetes heart disease and cancer These approaches only go so far Creating the conditions for people to lead flourishing lives and thus empowering individuals and communities is key to reduction of health inequalities In addition to the scale of material success your position in the social hierarchy also directly affects your health the higher you are on the social scale the longer you will live and the better your health will be As people change rank so their health risk changes What makes these health inequalities unjust is that evidence from round the world shows we know what to do to make them smaller This new evidence is compelling It has the potential to change radically the way we think about health and indeed society

*Ethics in Psychiatry* Hanfried Helmchen, Norman Sartorius, 2010-08-05 Ethics in Psychiatry 1 presents a comprehensive review of ethical issues arising in psychiatric care and research 2 relates ethical issues to changes and challenges of society 3 examines the application of general ethics to specific psychiatric problems and relates these to moral implications of psychiatry practice 4 deals with recently arising ethical problems 5 contains contributions of leading European ethicists philosophers lawyers historians and psychiatrists 6 provides a basis for the exploration of culture bound influences on morals manners and customs in the light of ethical principles of global validity

*Effective Practice in Youth Justice* Martin Stephenson, Henri Giller, Sally Brown, 2013-05-13 Youth justice has become an increasingly important part of the criminal justice system and has faced a wide range of challenges in the last few years Practice within the youth justice system has become increasingly professionalized with important roles being played locally by Youth Offending Teams and custodial establishments and centrally by the Youth Justice Board YJB Key to the professionalisation of the workforce has been the YJB's Effective Practice Strategy and associated HR and Learning strategy that seeks to enable youth offending services and individual practitioners within them to work in ways that are evidence based and informed by the most reliable and up to date research This book is an amalgamation significant update and revision of a series of Readers in the key areas of effective practice identified by the YJB It draws together the best available research in each of eleven key areas of practice considers the principles of effective practice as they relate to those areas and identifies the challenges for those working in the youth justice system The book is an essential resource for people working within the youth justice system those training to work in youth justice and students taking courses in youth justice as part of criminology or criminal justice degrees Providing a comprehensive and up to date review of research and the implications for practice it is designed to meet the needs of students taking YJB sponsored courses with the Open University in particular K208 the Professional Certificate in Effective Practice which forms part of a

wider Foundation Degree      **Assessing Forensic Mental Health Need** Andrea Cohen, Nigel Eastman, 2000 Mentally disordered offenders MDOs have dominated the recent political agenda for mental health care emphasised by cases such as those of Christopher Clunis and Michael Stone Yet successive governments have constrained the development of all health and social services by the requirement that they must be demonstrated as capable of benefiting those to whom they are applied This book analyses the development of government policy for services for MDOs since the important Butler report in 1975 and provides a theoretical framework for adjudging research which purports to demonstrate a need and outcome Finally it emphasises the subjective and value laden nature of all needs assessments and their interpretation and poses the crucial questions of whose need it is that we address through MDO services those of the patient or of society This book will be valuable to clinicians and researchers working in mental health services policy makers service commissioners and managers Features An analysis of the history of the MDO policy in relation to needs assessment pre and post the important Reed Report A methodological framework for needs assessment of MDOs Critical appraisal of alternative definitions of needs and of related concepts Critical analysis of the application of needs assessment methods A review of research relevant to needs assessment for MDOs Needs in relation to outcome An analysis of recent policy development related to MDO services
