Automotive Global Value Chain

Wilson Kia Onn Wong, 2017-08-09 Today some suppliers have grown increasingly powerful and in certain cases earn revenues that rival or even exceed that of their automaker clients In the pre globalisation period automakers wielded absolute power over their significantly smaller suppliers This book reveals the upending of this relationship with the gradual shift in the balance of power from automakers to their suppliers in this era of globalisation The book examines how suppliers in the global tyres seats constant velocity joints hereafter CVJs braking systems and automotive semiconductor industries have evolved into powerful oligopolies through a mix of acquisition and organic growth strategies It also highlights how joint ventures could be strategically deployed as springboards to acquisition as they enable firms to familiarise themselves with their partners markets and operations Moreover the book analyses the disruption stirred by the entry of well resourced technology titans into this industry and their inevitable clash with the traditional incumbents This book is an invaluable reference for anyone interested in learning more about the automakers and now their suppliers relentless quest to create market dominating intelligent driving systems
