Every Body's Story Branson Parler, 2022-10-11 Every story entails a way of life and how every way of life implies a big story In Every Body's Story Branson Parler focuses on three predominant myths of sexuality in our secular age individualism romance and materialism and three dominant myths in Christian circles anti body theology legalism and the sexual prosperity gospel exploring how those stories shape our practice Our views of sexuality and our practices around sex are never just about sex How we use and view our bodies reveals who what we think God is or is not and who we are If we truly understand the biblical logic of marriage sexuality and singleness that they are meant to embody the gospel then we will better understand why this witness is so vital As God's self giving faithfulness is put on display by both married and single Christians those formed by our secular age will have to ask What if it's true What if there's more What if God really does love us that much Rather than viewing our sexuality as an isolated matter of ethics we can see how the gospel places our sexuality in the context of God's rescue mission of the world

The Dilemma of Coalition Instability in Consensual Nonmonogamy James K. Beggan, 2020-11-18 Different forms of consensual nonmonogamy such as polyamory and swinging have achieved greater prominence in daily conversation and representation in mass media Although advocates recognize that the presence of additional people creates difficulties the author argues that this greater complexity may lead to unavoidable instability Drawing from classic work by Georg Simmel as well as modern research in the social sciences James K Beggan considers how the presence of a third person is what allows the formation of coalitions which then become part of the process that can break apart the triad This paradox explained with reference to game theory and social interdependence represents the existential threat to the quest for consensual nonmonogamy Beggan describes how psychological processes involving social comparison and gender and sexual orientation can limit the formation of certain types of coalitions which in turn influence which relationships can be expected to emerge in the context of consensual nonmonogamy His analysis includes macro level social issues related to establishing consensual nonmonogamy as a valid social identity and alternative
