Holding Up The Sky Together Ronald Bishop, 2017-11-30 Even as kindness toward individuals with intellectual disabilities has increased encountering an individual and his or her family whose lives revolve around the daily challenges that come with them is atypical or is experienced and narrated as such particularly by the media Even when there is progress making such a leap provides rhetorical cover or at least a distraction while intolerance regroups And for some it becomes less about showing love and compassion than about being able to pat oneself on the back when an interaction with a person like our son Neil is over But it's why they don't know or are curious but reluctant to engage or just flat out lack empathy that compelled us to write this book Contributing to their misimpressions and misanthropy are portrayals of individuals with intellectual disabilities in the mass media scant though they are We should always be skeptical of those in my line of work who argue that the onslaught of information we take in from a widened array of sources can magically change our behavior the so called hypodermic needle
