issue is inevitable The book encompasses in its fold a wide range of business and policy issues in the Indian setup Further in view of the fact that the various papers included in the present volume are authored by researchers with diverse interests and backgrounds it is not surprising that each paper may look unique even in terms of its structure of presentation too In such a situation the editor s dilemma should not be difficult to imagine for the reader As editors of this volume therefore we deliberately preferred to keep the author s style arguments or conclusions intact In more precise terms the papers included in this volume are largely in their original form and content Although we not being completely oblivious of our editorial responsibilities have attempted some cosmetic aesthetics here and there in respect of some papers

transitional economies the next three sections offer detailed treatments of changing consumer behavior measuring and improving the marketing orientation of firms and implementing and managing distribution channels The fifth and final section is devoted to firm strategies and tactics examined variously from the perspective of multinational firms entering these new markets from the viewpoint of existing local firms facing new competitive challenges from global entrants and from the perspective of local firms seeking to establish themselves in foreign markets where they have not previously competed Most of the individual chapters are revised versions of papers originally presented at a conference sponsored by the William Davidson Institute which focuses on research related to emerging and transitional economies and have not previously appeared in published form Thus the book is a unique collection of cutting edge scholarship on the various aspects of marketing in transitional economies It will prove valuable reading to academics policymakers and international business strategists
