

Personal Leadership Philosophy

To become a great leader, I must know myself. I must be able to engage in self-examination, be self-aware, and know what is truly in my core. "Thoughtful examination and testing of what we believe remains critical to sustaining great leadership." (Irwin 2014, p.129). The combination of these things will allow me to pursue my interests and goals and advance the mission of the organization I lead. Christian Reflections on The Leadership Challenge states that, "The truth is that leadership is an observable set of skills and abilities that are useful no matter where you are." (Kouzes & Posner, 2004.)

I must take my values, skills, and abilities out into the world and use them in such a way that will enhance my leadership. My leadership standards and core values will determine my success. Growing up, I have heard examples of how a sturdy foundation will last longer than a weak one. For example, I remember the story The Three Little Pigs. In the story, it is shown how the straw house blew down easy.

The house made of sticks, was a little more difficult to blow down. Lastly, the house made of bricks was almost impenetrable. In my current stage of life, I know I do not have bricks building my whole house. It is a combination of straw, sticks, and bricks. As I become stronger in my leadership abilities, I can start to eliminate the straw and sticks and have a strong, solid foundation that won't budge. My leadership will be built on a solid foundation of my standards, core values, and the strength and wisdom of my Savior.

Leadership standards and core values can be synonymous with each other in many ways. The words and the definitions may be different, but the underlying themes are harmonious. Impact uses the term 'core' "as a metaphor for the person inside of us." (Irwin 2014, p. 13). Our core has the ability to lead and/or guide our actions because it is the basis for our thoughts, feelings, attitude, and conscience. Because of this, it is important to be self-aware of values that define our core and keep our core strong throughout life's difficult decisions. Being able to define our Core Values is one of the first steps to becoming a great leader.

It is important to know where from you draw your intentions and motivations. We must be conscious of ourselves before we can truly begin to lead others. As mentioned to us in the Cascades series led by Derek Young, our Four Standards can dictate how we evaluate people. Therefore, it is important that those following our leadership example understand our standards so that they can know our intentions and expectations. My Four Standards are responsibility, organization, honesty, and authenticity.

The first of the four is responsibility. This also happens to be one of my core values. To me, responsibility can be defined as being able to hold to your word and promises and follow through with your actions. My mother taught me from a young age that respon

veritable intellectual celebrity owing to the runaway success of his 1979 book *The Imperative of Responsibility* a dense philosophical work that sold 200 000 copies An extraordinarily timely work today *The Imperative of Responsibility* focuses on the ever widening gap between humankind's enormous technological capacities and its diminished moral sensibilities The book became something of a cultural shibboleth he himself became a celebrated public intellectual For Jonas this development must have been enormously gratifying In the 1920s Jonas studied philosophy with Edmund Husserl and Martin Heidegger at the universities in Marburg and Freiburg but the Nazi regime's early attempts at Aryanizing the universities forced Jonas to leave Germany for London in 1933 He emigrated to Palestine in 1935 and eventually enlisted in the British Army's Jewish Brigade to fight against Hitlerism Following the Israeli War of Independence in which he also fought he emigrated to the United States and took a position in 1955 at the New School for Social Research in New York He became part of a circle of friends around Hannah Arendt and Heinrich Blücher which included Adolph Lowe and Paul Tillich Because Jonas's life spanned the entire twentieth century this memoir provides nuanced pictures of German Jewry during the Weimar Republic of German Zionism of the Jewish emigrants in Palestine during the 1930s and 1940s and of German Jewish migrant intellectuals in New York In addition Jonas outlines the development of his work beginning with his studies under Husserl and Heidegger and extending through his later metaphysical speculations about God after Auschwitz This memoir a collection of heterogeneous unpublished materials diaries memoirs letters interviews and public statements has been shaped and organized by Christian Wiese whose afterword links the Jewish dimensions of Jonas's biography and philosophy

Development in the Workplace Jack Demick, Patrice M. Miller, 2013-05-13 Originally presented at the Sixth Adult Development Symposium the papers in this volume examine possible relationships between the fields of organizational and adult developmental psychology with particular emphasis given to the grand developmental theories of Lawrence Kohlberg Jean Piaget Lev Vygotsky Heinz Werner and their descendants On the most general level the papers on development in the workplace are organized on the basis of the authors' chosen units of analysis the individual the dyad and group and the organizational culture The editors conclude by uncovering similarities and differences among the contributors' theoretical approaches to development in the workplace and their own From a recent extension of Werner's organismic developmental theory they focus their suggestions for future research on such issues as unit of analysis the holistic and systemic nature of human behavior and experience broader conceptualizations of the person of the environment and of development the need for methodological eclecticism the complementarity of basic and applied research Through this lens they shed light on underlying reasons why the majority of authors have focused on the individual worker as a unit of analysis and then propose that future researchers more broadly define the basic concept of development in the workplace

and Belief of Indian Military Affairs K. K. Singh, India does not admit easily to broad generalizations It is an extraordinarily complex and diverse society and Indian elites show little evidence of having thought coherently and systematically about national strategy although this situation may now be changing Despite India s cultural greatness and longevity as a civilization Indian history is often dimly perceived and poorly recorded given an oral tradition in imparting past events and the destruction of most records much of this history is difficult to verify Until the middle of the eighteenth century Indians knew little of their national history and seemed uninterested in it Four principal factors help to explain Indian actions and views about power and security Indian geography the discovery of Indian history by Indian elites over the past 150 years Indian cultural and social structures and belief systems and the British rule Geography has imparted a view of the Indian subcontinent as a single strategic entity with various topographical features contributing to an insular perspective and a tradition of localism and particularism India s unique culture reinforced this unity and imparted first a tendency toward diversity and accommodation to existing realities and second a highly developed capacity to absorb dissimilar concepts and theories This tolerance was strengthened by the caste system which also helped maintain an extraordinarily durable system and ethic for social relations *Review of Current Military Literature* ,2007
