Howell,2013-11-11 Taken together the data presented in this review and work by many other investigators support the notion that DNA excision repair is important in a tumor cell s resistance to platinum compounds Inhibition of this repair system by combination chemotherapy with the excision repair inhibitors HU and Ara C produces synergistic cell kills and increased levels and persistence of DNA interstrand crosslinks The studies with cis DDP and DDP in combination with UV induced thymine dimers suggest that there may be competition for DNA repair enzymes between the dimer and the platinum lesion Whether the competing lesion is an intrastrand crosslink interstrand crosslink or platinum monoadduct or all of these lesions cannot be determined The similarity between an intrastrand crosslink and a cyclobutane dimer suggests that these lesions may compete for repair However the increased peak levels of interstrand crosslinks and increased persistence of these lesions at later time points suggest that this lesion may also be a substrate for the repair system These observations may be of clinical relevance Recently Dr Kathy Albain of our institution has completed a Phase III I study using a 12 hour pretreatment with HU and Ara C in patients prior to their cis DDP therapy She observed a significant number of responders in this trial 54 She is currently completing a second Phase IIII study substituting IV HU for the oral formulation We anticipate initiating other clinical trials based upon these observations Platinum Business Studies Grade 10 Teacher's Guide ePDF , This note is part of Quality testing **National Union Catalog** ,1981 Includes entries for maps and atlases *Abel's Photographic Weekly* ,1912 **Complete Book of Colleges** Princeton Review (Firm),2009-08-04 Target the schools that best match your interests and goals TheComplete Book of Collegesprofiles all of the four year colleges in the U S more than 1 600 and is the key to a successful college search Complete Book of Collegesis packed with all of the information that prospective applicants need to know including the details on Academics Admissions requirements Application procedures Tuition and fees Transferring options Housing Financial Aid Athletics and much much more Fully updated for 2010 theComplete Book of Collegescontains all of the latest information about each school Its unique Admissions Wizard questionnaire is designed to help you find schools that meet your individual needs With competition for
