Platitudes The New Black Aesthetic:

Platitudes Trey Ellis, 2003-10-02 A playful irreverent look at the African American literary community **African American Satire** Darryl Dickson-Carr, 2001 Satire's real purpose as a literary genre is to criticize through humor irony caricature and parody and ultimately to defy the status quo In African American Satire Darryl Dickson Carr provides the first book length study of African American satire and the vital role it has played In the process he investigates African American literature American literature and the history of satire Book Jacket **Black Male Fiction and the Legacy of Caliban** James W. Coleman, 2021-12-14 With *The Tempest*'s Caliban Shakespeare created an archetype in the modern era depicting black men as slaves and savages who threaten civilization As contemporary black male fiction writers have tried to free their subjects and themselves from this legacy to tell a story of liberation they often unconsciously retell the story making their heroes into modern day Calibans Coleman analyzes the modern and postmodern novels of John Edgar Wideman Clarence Major Charles Johnson William Melvin Kelley Trey Ellis David Bradley and Wesley Brown He traces the Caliban legacy to early literary influences primarily Ralph Ellison and then deftly demonstrates its contemporary manifestations This engaging study challenges those who argue for the liberating possibilities of the postmodern narrative as Coleman reveals the pervasiveness and influence of Calibanic discourse At the heart of James Coleman's study is the perceived history of the black male in Western culture and the traditional racist stereotypes indigenous to the language Calibanic discourse Coleman argues so deeply and subconsciously influences the texts of black male writers that they are unable to cast off the oppression inherent in this discourse Coleman wants to change the perception of black male writers' struggle with oppression by showing that it is their special struggle with language *Black Male Fiction and the Legacy of Caliban* is the first book to analyze a substantial body of black male fiction from a central perspective *African American Literature in Transition, 1980-1990: Volume 15* D. Quentin Miller, Rich Blint, 2023-02-09 *African American Literature in Transition 1980-1990* tracks Black expressive culture in the 1980s as novelists poets dramatists filmmakers and performers grappled with the contradictory legacies of the civil rights era and the start of culture wars and policy machinations that would come to characterize the 1990s The volume is necessarily interdisciplinary and critically promiscuous in its methodologies and objects of study as it reconsiders conventional temporal spatial and moral understandings of how African American letters emerged immediately after the movement James Baldwin describes as the latest slave rebellion As such the question of the state of America's democratic project as refracted through the literature of the shaping presence of African Americans is one of the guiding concerns of this volume preoccupied with a moment in American literary history still burdened by the legacies of the 1960s while imagining the contours of an African Americanist future in the new millennium *Slavery and the Post-Black Imagination* Bertram D. Ashe, Ilka Saal, 2020-01-06 Honorable Mention for the 2022 Modern Language Association Prize for an Edited Collection Interrogates how artists have created new ways to imagine the past of American slavery From Kara

Walker's hellscape antebellum silhouettes to Paul Beatty's bizarre twist on slavery in *The Sellout* and from Colson Whitehead's literal Underground Railroad to Jordan Peele's body snatching *Get Out* this volume offers commentary on contemporary artistic works that present like musical deep cuts some challenging alternate takes on American slavery. These artists deliberately confront and negotiate the psychic and representational legacies of slavery to imagine possibilities and change. The essays in this volume explore the conceptions of freedom and blackness that undergird these narratives critically examining how artists growing up in the post Civil Rights era have nuanced slavery in a way that is distinctly different from the first wave of neo slave narratives that emerged from the Civil Rights and Black Power Movements. Slavery and the Post Black Imagination positions post blackness as a productive category of analysis that brings into sharp focus recent developments in black cultural productions across various media. These ten essays investigate how millennial black cultural productions trouble long held notions of blackness by challenging limiting scripts. They interrogate political as well as formal interventions into established discourses to demonstrate how explorations of black identities frequently go hand in hand with the purposeful refiguring of slavery's prevailing tropes, narratives and images.

A V Ethel Willis White Book *The Lever of Riches* Joel Mokyr, 1992-04-09 In a world of supercomputers, genetic engineering and fiber optics, technological creativity is ever more the key to economic success. But why are some nations more creative than others and why do some highly innovative societies such as ancient China or Britain in the industrial revolution pass into stagnation? Beginning with a fascinating concise history of technological progress, Mokyr sets the background for his analysis by tracing the major inventions and innovations that have transformed society since ancient Greece and Rome. What emerges from this survey is often surprising: the classical world, for instance, was largely barren of new technology; the relatively backward society of medieval Europe bristled with inventions; and the period between the Reformation and the Industrial Revolution was one of slow and unspectacular progress in technology despite the tumultuous developments associated with the Voyages of Discovery and the Scientific Revolution. What were the causes of technological creativity? Mokyr distinguishes between the relationship of inventors and their physical environment which determined their willingness to challenge nature and the social environment which determined the openness to new ideas. He discusses a long list of such factors showing how they interact to help or hinder a nation's creativity and then illustrates them by a number of detailed comparative studies examining the differences between Europe and China between classical antiquity and medieval Europe and between Britain and the rest of Europe during the industrial revolution. He examines such aspects as the role of the state, the Chinese gave up a millennium wide lead in shipping to the Europeans, for example, when an Emperor banned large ocean going vessels; the impact of science as well as religion, politics and even nutrition. He questions the importance of such commonly cited factors as the spill over benefits of war, the abundance of natural resources, life expectancy and labor costs. Today an ever greater number of industrial economies are competing in the global market, locked in a struggle that revolves around technological

ingenuity The Lever of Riches with its keen analysis derived from a sweeping survey of creativity throughout history offers telling insights into the question of how Western economies can maintain and developing nations can unlock their creative potential
