Pond Animals Identification:

Identifying and Managing Aquatic Rodents in Texas Dale A. Wade, Charles W. Ramsey, 1986 **Investigating Your Environment**, 1994 **Animals and Early Modern Identity** Pia F. Cuneo, 2017-07-05 Animals were everywhere in the early modern period and they impacted at least in some way the lives of every kind of early modern person from the humblest peasant to the greatest prince Artists made careers based on depicting them English gentry impoverished themselves spending money on them Humanists exercised their scholarship writing about them Pastors saved souls delivering sermons on them Nobles forged alliances competing with them Foreigners and indigenes negotiated with one another through trading them The nexus between animal human relationships and early modern identity is illuminated in this volume by the latest research of international scholars working on the history of art literature and of sixteenth and seventeenth century Germany France England Spain and South Africa Collectively these essays investigate how animals horses dogs pigs hogs fish cattle sheep birds rhinoceroses even sea monsters and other creatures served people in Europe England the Americas and Africa to defend contest or transcend the boundaries of early modern identities Developments in the methodologies employed by scholars to interrogate the past have opened up an intellectual and discursive space for and a concomitant recognition of the study of animals as a topic that significantly elucidates past and present histories Relevant to a considerable array of disciplines the study of animals also provides a means to surmount traditional disciplinary boundaries through processes of dynamic interchange and cross fertilization **Identifying Animal Tracks** Richard Headstrom, 2012-07-12 **DIV For hunters naturalists scouts nature lovers Diagrams of tracks tips on identification div EPA-600/K.**, 1997-06 **50 Fantastic Ideas for Fearless Play** Judit Horvath, 2017-03-09 The 50 Fantastic Ideas series is packed full of fun original skills based activities for Early Years practitioners to use with children aged 0-5 Each activity features step by step guidance a list of resources and a detailed explanation of the skills children will learn Creative simple and highly effective this series is a must have for every Early Years setting Fearless play is a key element in developing a child's confidence extending their limits and helping them learn to assess risks and manage situations This book is full of fun and colourful ideas for facilitating fearless play in early years settings The variety of activities means there's something for every child to enjoy ranging from basket making to mud racing Each idea is targeted to help children face new challenges and explore the world around them as well as helping to establish motor skills coordination and body awareness A perfect resource for busy early years practitioners who want children in their care to play safely and fearlessly **World of Fresh Water**, 1997 **Think Green, Take Action** Daniel A. Kriesberg, 2010-08-16 This book provides an annotated bibliography of age appropriate literature and activities showing children the importance of environmental issues and teaching them the skills to take action In past years teaching children about conservation and environmental issues might have been an optional side topic to complement an earth science curriculum but in today's educational climate being green is a subject with great relevance and importance

This book combines a wide variety of techniques to help students understand environmental issues and gain the skills needed to take action. The children's literature and classroom activities suggested in Think Green Take Action Books and Activities for Kids are appropriate for elementary school students from grades three through seven covering three major environmental issues: endangered species, resource depletion, and pollution. After students have a grasp of the causes of these environmental problems, the final chapter presents ways to take easy action that can create ripples of change across the world. Educators in museums and nature centers, home-schooled children, and their parents comprise an appropriate secondary audience for this instructive text.

World of fresh water : a resource for studying issues of freshwater research, 1997 **National Animal Identification System** Lisa Shames, 2008-10 Livestock production contributed 123 billion to the U.S. economy in 2006. In response to concerns about animal disease outbreaks, the U.S. Dept. of Ag. USDA announced in Dec. 2003 that it would implement a nationwide program, the Nat. Animal Identification System (NAIS), to help producers and animal health officials respond quickly and effectively to animal disease events. This report determined 1) how effectively USDA is implementing NAIS and the key issues identified by livestock industry groups, market operators, state officials, and others; 2) how USDA has distributed coop. agree. funds to help states and industry prepare for NAIS and evaluated the agreements' results; and 3) what are the costs to implement NAIS. Charts.

A Sense of Place Daniel A. Kriesberg, 1999-03-15 Celebrating nearby nature and the marvels of our own backyards, this book helps you introduce children to the world around them. With quality children's literature and simple activities, you can cultivate a child's sense of wonder and joy and teach him or her the importance of living in harmony with nature. These projects span the curriculum and are presented in reproducible format so they're easy to use. Highlighting the five senses (sight, sound, smell, taste, touch), they build connections between students and the land and create in young learners a sense of place, a true necessity for living in the world today. Grades K-6.
