The Application of the Third Generation of Cognitive-Behavioral Approaches to Parenting Helena Moreira, Eva S. Potharst, Maria Cristina Canavarro, 2019-12-10 In recent years there has been growing interest in understanding how the third generation of cognitive behavioral approaches particularly mindfulness compassion and acceptance based approaches can contribute to the design of more efficacious parenting interventions and to a better understanding of parenting behaviors and the parent child relationship However the application of third generation cognitive behavioral therapies and concepts to parenting is still in its infancy and further research is needed to explore the potential of these approaches to enhance existing parenting interventions or to inform the development of new parenting interventions targeting different groups of parents and their children More research is also needed to understand how mindfulness self compassion acceptance and other related psychological processes may influence parenting practices the parent child relationship and the child s socioemotional development With this e book presenting state of the art research articles on third generation cognitive behavioral approaches a new step is taken in 1 exploring relations between parenting related issues and concepts from the third generation cognitive behavioral framework and 2 examining parenting interventions informed by third generation cognitive behavioral therapies

Consumer Neuroscience - Foundation, Validation, and Relevance Thomas Zoëga Ramsoy,Hilke Plassmann,Carolyn Yoon,Joseph T. Devlin,2023-08-07 Consumer neuroscience has become an expanding area of both research and conduct spanning from academic interests in the brain bases of consumption choices to commercial application of neuroscience tools and metrics However many of these advances are still criticized for low applicability scattered publication records conceptual vagueness and a lack of proper scientific and commercial validation To make matters worse there is now a host of proposed commercial applications of both the insights from neuroscience and the application of neuroscience and neurophysiology tools to test consumer responses While many of these approaches may be valid many other approaches are either not properly validated or may be flawed misguided or even

outright lies As a discipline there is a need for both the basic and applied research in consumer neuroscience to become aligned The purpose of this Research Topic is to provide this much needed platform for such an industrial alignment In doing so this Research Topic will provide perspectives on three main areas 1 distinctions between basic translational and applied consumer neuroscience research 2 conceptual clarification on key concepts relevant to the science and application of consumer neuroscience 3 validation of consumer neuroscience methods and how they relate to commercially relevant cases For this Research Topic we therefore welcome submissions that combine academic and commercial research all in the vein of making advances in establishing a valid applicable consumer neuroscience *Ad Critique* Nancy R.
