Comprehensive Financial Planning Strategies for Doctors and Advisors David Edward Marcinko, Hope Rachel Hetico, 2014-12-09 Drawing on the expertise of multi degreed doctors and multi certified financial advisors Comprehensive Financial Planning Strategies for Doctors and Advisors Best Practices from Leading Consultants and Certified Medical Planners will shape the industry landscape for the next generation as the current ecosystem strives to keep pace Traditional g **The Physician Manager's Handbook** Robert J. Solomon, 2008 Physicians are increasingly taking on new roles as executives and managers in today s health care delivery system As such management skills should be an essential part of every physician s repertoire Complete with sophisticated and practical approaches to health system management and leadership problems encountered by physicians this text is an ideal resource The Doctor's Handbook Tony White, 2018-04-19 Many doctors do not receive training early in their careers on the broad range of non clinical aspects of their work and confront day to day issues for which initial medical education has failed to prepare them Experienced doctors and consultants can also experience a similar lack of accessible reference material on these aspects of their role and for the non clinical training of their juniors This book and its companion volume *The Doctor s Handbook Part 1 managing your role*

beyond clinical medicine have been written to address these and other needs Previously published as The Specialist Registrar and New Consultant Handbook these completely revised and reconfigured volumes reflect the changing everyday work of specialist trainees registrars and consultants Topics covered in Volume 2 include **How to Assess Doctors and Health Professionals** Mike Davis, Judy McKimm, Kirsty Forrest, 2013-01-10 This important book offers an introduction to the theory and the varying types of assessment for health care professionals The book includes information on such topics as Where have work based assessments come from Why do we have different parts to the same exam like MCQs and OSCEs How do colleges decide who has passed or not Why can people pick their own assessors for their MSF The role of formative assessment Portfolios and their value The book avoids jargon is clear and succinct and gives the pros and cons of the different assessment processes **The New GP's Handbook** Peter Davies, Lindsay Moran, Adrian Roebuck, 2022-02-22 General Practice has never been an easy occupation In the past there were some clear structures and routes for new GPs to take You could expect to join a practice and progress through the ranks growing in seniority and confidence You might have been informally mentored by one of the older colleagues learning management and business skills gradually It is no longer like this The market has changed the range of options is wider and the way through the labyrinth is far from clear You might find yourself confused and overwhelmed by all the new opportunities possibilities and prospects This book helps to clarify uncertainties and guide you towards the right path It offers ways to formulate strategies when planning your career and maps out the landscape of general practice enabling you to make confident and informed decisions about your professional future Supporting the initiative of First5 R The New GP's Handbook is highly recommended for newly qualified GPs who will find it answers so many of their questions and helps make the first five years and beyond in general practice more understandable productive and enjoyable Experienced GPs too will find the guide invaluable as a current general overview General practice is an exciting and rewarding career which provides a host of opportunities for new GPs entering the profession today Finding the right job achieving a good work life balance and developing a culture of lifelong learning are vital not only for the fulfilment of new GPs themselves but for the future of the profession This book will help you achieve these objectives Clare J Taylor in the Foreword **Revalidation of doctors** Great Britain: Parliament: House of Commons: Health Committee, 2011-02-08 The Committee says the GMC should be accountable to Parliament The GMC is formally accountable to the Privy Council but In the absence of a mechanism which makes this accountability effective the MPs intend to exercise this function themselves on behalf of Parliament Revalidation of doctors has been under discussion for over 10 years This is considered too long the GMC is expected to ensure that there are no further delays and that the current target date of late 2012 is achieved Reviewing the GMC's current proposals MPs warn that too little attention has been given to the issue of how to deal with doctors whose practice gives cause for concern The Committee is also concerned that the use of the word remediation may have the effect of pre judging the appropriate response to a particular set of circumstances In relation

to appraisal systems MPs broadly support the proposal that revalidation should be based on the conclusions of employers appraisal systems However there is evidence showing that the record of employers on appraisal is patchy and the importance of patient and colleague involvement in the appraisal process is emphasised MPs also felt there should be clear guidance about how Responsible Officers should act when a conflict of interest arises between their responsibility to their employer and their responsibility to the GMC Finally the issue of doctors for whom English is a second language was considered As the body responsible for revalidation and with a commitment to introducing it by late 2012 the GMC is expected to satisfy itself that it has the necessary powers to fulfil this role if it is not satisfied it needs to say so publicly and report to Parliament what changes are necessary to allow it to fulfil its function effectively
