The universal concept of Justice and Mercy is now brought down to us by a single character throughout the ages as shown in this paper, which has been written four hundred years after Shakespeare's *The Tempest*, and seven hundred years after Dante's *Inferno*. Prospero has undoubtedly committed the great sin of Wrath, by use of magic, he altered the natural path of destiny and, for this sin, was condemned to the eighth level of hell as Dante envisioned it in his writing of *Inferno*. This leaves one to wonder: did Prospero know of God and Christ, of how his actions were sins against them? Or was Prospero much like the thief on the cross next to Jesus, completely unaware of the Christian concept of God? Would such knowledge have altered Prospero's course? In what way? If only Shakespeare were alive to tell us.

The Problem of the Color Line at the Turn of the Twentieth Century W. E. B. Du Bois, 2014-12-03 Early essays from the sociologist displaying the beginnings of his views on politics society and Black Americans status in the United States This volume assembles essential essays some published only posthumously others obscure another only recently translated by W E B Du Bois from 1894 to early 1906 They show the first formulations of some of his most famous ideas namely the veil double consciousness and the problem of the color line Moreover the deep historical sense of the formation of the modern world that informs Du Bois's thought and gave rise to his understanding of the problem of the color line is on display here Indeed the essays constitute an essential companion to Du Bois's 1903 masterpiece The Souls of Black Folk The collection is based on two editorial principles presenting the essays in their entirety and in strict chronological order Copious annotation affords both student and mature scholar an unprecedented grasp of the range and depth of Du Bois's everyday intellectual and scholarly reference These essays commence at the

moment of Du Bois's return to the United States from two years of graduate level study in Europe at the University of Berlin. At their center is the moment of Du Bois's first full self-reflexive formulation of a sense of vocation as a student and scholar in the pursuit of the human sciences in their still nascent disciplinary organization that is the institutionalization of a generalized sociology or general ethnology as they could be brought to bear on the study of the situation of the so-called Negro question in the United States in all of its multiply refracting dimensions. They close with Du Bois's realization that the commitments orienting his work and intellectual practice demanded that he move beyond the institutional frames for the practice of the human sciences. The ideas developed in these early essays remained the fundamental matrix for the ongoing development of Du Bois's thought. The essays gathered here will therefore serve as the essential reference for those seeking to understand the most profound registers of this major American thinker. A seminal contribution to the history of modern thought. Compiled and edited by the world's preeminent scholar of early Du Boisian thought, these texts represent his most generative period when Du Bois engaged every discipline helped construct modern social science employed critical inquiry as a weapon of antiracism and political liberation and always set his sites on the entire world. We know this not by the essays alone but by Nahum Dimitri Chandler's brilliant original and quite riveting introduction. If you are coming to Du Bois for the first time or the 500th time, this book is a must-read. Robin D. G. Kelley, author of *Freedom Dreams: The Black Radical Imagination*.
