

- What roles do interest groups play in our political system?
 - Interest groups try to influence the making and content of public policy. They do this by:
 - Promoting awareness of public affairs
 - Representing people who share their views, regardless of where those people live
 - Providing useful information to government on specific policy issues
 - Helping people take part in the political process

Sustainable Human-Environment Interactions from Scientific, Technological, and Psychological Perspectives Tien-Chi Huang, Maria Limniou, Tai-Kuei Yu, Shin Jia Ho, 2024-06-19 In 2016 Japan proposed Society 5.0 a concept in which innovation and technology are used to solve social problems The core elements of Society 5.0 include problem solving and value creation interdisciplinary skills diverse opportunities resilience and environmental harmony This concept also highlights the United Nations 17 Sustainable Development Goals (SDGs) which all individuals and organizations need to face The promotion of the SDGs from a psychological perspective is believed to be beneficial and aligns with the intention of the United Nations Sustainable Development Goals (SDGs) can be examined from a microscopic level to understand individuals mental processes and attitudes toward them Investigating the relationships between the SDGs and social and positive psychology can benefit their promotion Discussing the SDGs from a psychological perspective aligns with the intention of the United Nations

Environmental Policymaking in an Era of Climate Change Matthew Nowlin, 2019-05-08 As the world considers how to deal with the impacts of a changing climate it's vital that we understand the ways in which the United States policymaking process addresses environmental issues A mix of existing theory and original analysis *Environmental Policymaking in an Era of Climate Change* applies recent policy scholarship to questions of environmental governance with a particular focus on climate change The book examines how competing political actors influence policies within and across institutions focusing on both a macro level where formal bodies set the agenda and a meso level where issues are contained within policy subsystems Divided into two sections the book incorporates insights from political science and public policy to provide the reader with a better understanding of how environmental policy decisions are made Part I offers a framework for understanding environmental policymaking exploring the history of environmental policy and discussing the importance of values in environmental policy Part II applies the framework to the issue of climate change focusing on agenda setting and the role of formal institutions in the policymaking process covering topics that include Congress the Executive and Judicial branches and how climate change cuts across policy subsystem boundaries By placing specific climate change case studies in a broader context *Environmental Policymaking in an Era of Climate Change* will help students enrolled in political science public administration public policy and environmental studies courses as well as all those interested in the impacts of policy on climate change to understand what is and will likely

continue to be one of the most pressing policy issues of our time **The Nature of Socialist Economics** Peter Murrell, 2014-07-14 What are the sources of the well known differences in the performance of capitalist and socialist economic systems Peter Murrell argues that the Schumpeterian model has far more power to answer this question than does the neoclassical theory generally used for that purpose The neoclassical theory focuses on the absence of a price system and the inability of a centralized system to allocate resources efficiently while the Schumpeterian model emphasizes the rigidity of institutions and policies in socialist economies and their lack of mechanisms either to create new institutions or to identify and to foster the growth of the most efficient organizations including multinational corporations In a work that will have profound consequences for the analysis of economic reform in socialist economies Murrell compares the predictions of these two models against data summarizing foreign trade performance and finds the Schumpeterian model clearly superior Combining international trade theory and econometric techniques the author develops new methods of comparative economic analysis These methods provide new information on the values of eleven resource endowments implicit in trade the degree to which the socialist countries fit standard models of trade the effect of multinational corporations on trade and myriad other features of economic performance Originally published in 1990 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905

The Politics of Nature Andrew Dobson, Paul Lucardie, 2002-11-01 This book presents a uniquely comprehensive and balanced survey of current green political ideas It analyses the ability of these ideas to provide plausible answers to fundamental problems in political theory concerning justice and democracy individual rights and freedom human nature and gender The authors who come from a range of different disciplines explore the relationship between green ideas and other traditions including liberalism anarchism feminism and Christianity **Political Power and Economic Policy** Gordon C. Rausser, Johan Swinnen, Pinhas Zusman, 2011-09-30 This book analyzes the links between political economics governance structures and the distribution of political power in economic policy making The book theoretically explains and empirically quantifies these interactions The analysis includes both public good policies and redistributive policies Part I of the book presents the conceptual foundations of political economic bargaining and interest group analysis After presenting the underlying theory Part II of the book examines ideology prescription and political power coefficients Part III analyzes a number of specific structures and Part IV presents a framework for political econometrics with a number of empirical applications and testable hypotheses In all four parts of the book four analytical dimensions of public policy are distinguished governance structures political economy mechanism design and incidence **The Nature of the Japanese State** Brian J.

McVeigh,2013-09-13 Brian J McVeigh uses a unique anthropological approach to step outside flawed stereotypes of Japanese society and really engage in the current debate over the role of bureaucracy in Japanese politics To many in the West Japan appears as a paradox a rational high tech economic superpower and yet at the same time a deeply ritualistic and ceremonial society This adventurous new study demonstrates how these nominally conflicting impressions of Japan can be reconciled and a greater understanding of the state achieved *The Systemic Nature of the Economic Crisis* Arturo

Hermann,2015-03-27 The most prominent aspect of the current financial crisis is its systemic character which manifests itself in high levels of inequality rampant unemployment economic and social insecurity and environmental decay This book explores the potential of a pluralistic and interdisciplinary approach for a deeper understanding of the manifold aspects of the economic crisis This book examines the potential of a number of contributions from heterodox economics and psychoanalysis in providing a deeper understanding of these problems The book analyses some of the most debated aspects of the concepts of market democracy and socialism and explores the role of structural ties between economic social and psychological aspects of collective life It also addresses the main economic aspects of the crisis and pays particular attention to a number of structural imbalances and to the psychological interpretation of these phenomena By drawing together approaches from heterodox economics and psychoanalysis this book adopts a pluralist and interdisciplinary approach to the study of these phenomena and manages to overcome the fragmentation so often present in social sciences **Sponsoring**

Nature Maano Ramutsindela,Marja Spierenburg,Harry Wels,2013-11-05 Saving the world s flora and fauna especially high profile examples such as chimpanzees whales and the tropical rain forests is big business Individuals and companies channel their resources to the preservation of nature through various ways one of which is the funding of environmental non governmental organizations ENGOs and community based organizations CBOs This book is the first to comprehensively address this issue and focus on a dominant theme in environmental philanthropy the links between ENGOs and CBOs and their sponsors especially the private sector It has been argued that donor support is based on recipient s perceived expertise and needs with no favouritism of flagship environmental organizations as recipients of donor funds A counterview holds that the private sector prefers to fund mainstream ENGOs for environmental research and policy reforms congenial to industrial capital The authors show that the debate about these arguments together with the empirical evidence on which they are based may shed light on certain aspects of the nature of environmental philanthropy The book evaluates practical examples of environmental philanthropy from Africa and elsewhere against philosophical questions about the material and geographical expressions of philanthropy and the North South connections among philanthropists and ENGOs and CBOs

Who Speaks for Nature? Todd A. Eisenstadt,Karleen Jones West,2019-03-14 Using the first national survey in Ecuador featuring an oversample of Amazon indigenous communities this path breaking book argues that how vulnerable or exposed people have been to environmental degradation determines how strongly they feel about saving the environment Rather than

emphasizing ethnic identity or stakeholders ideological pre dispositions towards environmentalism the authors argue that on the front lines of environmental conservation peoples views are driven by personal experiences of vulnerability Using the survey and hundreds of interviews across Ecuador over three years the authors also argue that the creation of interest groups across ethnic and class lines is more effective in promoting environmental activism than more traditional approaches involving only ethnic or partisan affinity groups Public Opinion and Interest Group Politics Heather A. Thuynsma,2012 Pt 1 Public opinion and interest group politics around the world instructive insight Special interests and how they help shape US legislation interesting possibilities or potential pitfalls Fundraising for social change in the US interest group advocacy in contemporary US elections Interest groups in the German political system advice for South Africa Pt 2 Public opinion and interest group politics in South Africa comparing perspectives Understanding the South African political psyche The character of the South African state the self understanding of the ANC as government and its impact on the public space The methodology of polling public opinion in South Africa measuring the pulse of the people Managing public opinion during the 2009 South African elections The possibilities of election campaigns as sites for political advocacy South Africa in comparative perspective Challenges for interest groups and their advocacy campaigns the case of sustainable medium density housing An interest group at work environmental activism and the case of acid mine drainage on Johannesburg s West Rand Pt 3 Championing public opinion a future for interest groups Managing campaigns to influence the public policy agenda putting theory into practice Advocacy and financing that shapes and shifts public opinion Government and access effects on the use of social networking sites by nationwide NGOs in the US South Africa and Mexico The ability of social movements to affect policy change in South Africa and the United States comparing and contrasting key elements of HIV AIDS treatment and welfare entitlement campaigns Beyond appeasement the real business agenda Democracy without choice Interest groups advocacy and political behaviour in Namibia a warning for South Africa Research Handbook on Law, Governance and Planetary Boundaries Duncan French,Louis J. Kotzé,2021-04-30 This comprehensive Research Handbook is the first study to link law and Earth system science through the epistemic lens of the planetary boundaries framework It critically examines the legal and governance aspects of the framework considering not only each planetary boundary but also a range of systemic issues including the ability of law to keep us within the planetary boundaries safe operating space **Ecology and Conservation of the Maned Wolf** Adriana G. Consorte-McCrea,Eliana Ferraz Santos,2013-10-24 Wolves are controversial figures worldwide and much effort has focused on how to conserve them while addressing public concerns With its solitary habits and fruit eating diet the endangered maned wolf roams the South American grasslands and swamps playing a vital part in maintaining biodiversity hotspots Compared to the grey wolf little is kno **War and Human Nature** Stephen Peter Rosen,2009-02-09 Why did President John F Kennedy choose a strategy of confrontation during the Cuban missile crisis even though his secretary of defense stated that the presence of missiles in

Cuba made no difference Why did large numbers of Iraqi troops surrender during the Gulf War even though they had been ordered to fight and were capable of doing so Why did Hitler declare war on the United States knowing full well the power of that country War and Human Nature argues that new findings about the way humans are shaped by their inherited biology may help provide answers to such questions This seminal work by former Defense Department official Stephen Peter Rosen contends that human evolutionary history has affected the way we process the information we use to make decisions The result is that human choices and calculations may be very different from those predicted by standard models of rational behavior This notion is particularly true in the area of war and peace Rosen contends Human emotional arousal affects how people learn the lessons of history For example stress and distress influence people s views of the future and testosterone levels play a role in human social conflict This thought provoking and timely work explores the mind that has emerged from the biological sciences over the last generation In doing so it helps shed new light on many persistent puzzles in the study of war
