Peter Baumgarten, 2020-11-23 The Seeker's Guide to Faith confronts and answers the thirteen principal arguments against God that are now advanced by modern secularist movement sometimes called New Atheism using the powerful insights and teachings of The Church of Jesus Christ of Latter day Saints There are many books written to encourage faith for people who are experiencing doubts about God generally However this book is the only one of its kind by a Latter day Saint author that directly and specifically challenges all the main arguments against faith in God that are now aggressively asserted by the belligerent modern secular movement Its uniqueness is enhanced by the fact that the doctrines and teachings of The Church of Jesus Christ of Latter day Saints are used whenever applicable to effectively answer the challenges raised by this movement This author believes that the unique teachings and insights of the Church are better suited than those of any other faith for answering those challenges Furthermore the author's professional and volunteer activities have afforded him the opportunity to know and work with people of nearly all religious backgrounds in nearly all walks of life Recent experiences have led him to examine the reasons many apparently intelligent people reject faith His legal background and training have aided him in spotting and understanding the weaknesses and flaws of the logical underpinnings of atheism His Gospel upbringing as a member of The Church of Jesus Christ of Latter day Saints has helped him see through the fog of the dogma and arguments of atheism to the More Excellent Way afforded by the Gospel's plan of happiness He hopes The Seeker's Guide to Faith will help others who stand at the crossroads of their doubts to find their faith in Heavenly Father and His Son Jesus Christ

English as a Lingua Franca in Cross-cultural Immigration Domains Maria Grazia Guido,2008 This book explores

the cognitive and communicative processes involved in the use of English as a Lingua Franca ELF within cross cultural specialized contexts where non native speakers of English i e Western experts and non Western migrants interact The book argues that the main communicative difficulties in such contexts are due precisely to the use of ELF since it develops from the non native speakers transfer of their native language structures and socio cultural schemata into the English they speak Transfer in fact allows non native speakers to appropriate or authenticate those English semantic syntactic pragmatic and specialized discourse structures that are linguistically and conceptually unavailable to them It follows that there are as many ELF varieties as there are communities of non native speakers authenticating English The research questions justifying the ethnographic case studies detailed in this book are What kind of cognitive frames and communicative strategies do Western experts activate in order to convey their culturally marked knowledge of specialized discourse by using their ELF varieties to non Westerners with different linguistic and socio cultural backgrounds What kind of power asymmetries can be identified when non Westerners try to communicate their own knowledge by using their respective ELF varieties Is it possible to ultimately develop a mode of ELF specialized communication that can be shared by both Western experts and non Western migrants
