Self Coaching 101:

Self Coaching 101 Brooke Castillo, 2008-11 Self coaching is about feeling better It really is that simple Everything we do in our lives is because we want to feel better When we give it feels good When we help others it feels good When we accomplish something it feels good Whenever we feel bad we are usually seeking a way to feel good The reason we want to feel good is because it is our true nature Alignment with our spirit our true essence the God within us feels good It feels peaceful joyous honest abundant and free Through coaching ourselves we can feel good much more of the time By coaching ourselves we find what is not working in our lives We find that trying to change the external circumstances to change how we feel is impossible We learn that fighting our emotions or trying to deny them only makes them bigger We find that our thinking is the most important thing we can pay attention to in order to feel better now By taking a peek into our own minds we can find the cause of all our suffering We can see how we block our joy with outdated and untruthful thoughts and beliefs By just being in this place of awareness we have aligned with our true nature and can observe the patterns of our lives Hiring a coach can be an amazing experience Having someone who is already outside of your mind give you a different perspective to consider is often the first step in change But ultimately it is the process of shifting your own perception with your own awareness that will create non dependent freedom This is why I feel so strongly about learning how to apply these simple self coaching tools in your own life and on your own mind If you are willing to do the work now it becomes a way of being You will step into a life that is lived with awareness and consciousness because each time you feel any negative emotion you see it as a signal to coach yourself and realign with the true essence of you Self coaching 101 teaches you the basics of how to do this And the basics are enough
