**The Magic of Green Tea - Green Tea for Health** Dueep Jyot Singh, John Davidson, 2015-12-21 Table of Contents The Magic of Green Tea Table of Contents Introduction History of Tea How to recognize Green Tea How to Prepare Green Tea Health Benefits of Green Tea Best Detoxifying Agent Cardiovascular Diseases Stress Buster Weight Loss through Green Tea Cancer Fighting Properties Antiaging Properties Other Health Benefits Green Tea as a Beauty Aid Skin Rejuvenator Getting Rid of Sunburn Green Tea for Your Hair Traditional Green Tea Home Cure Remedies Basil leaf green tea decoction Conclusion Author Bio Publisher Introduction Since ancient times man has been looking for healthy drinks which could promote good health longevity and vitality Green tea comes in this category A majority of us cannot do without the cup that cheers early in the morning Sometimes we may even find ourselves addicted to our cup of hearty java first thing in the morning before we can wake up completely But since ancient times green tea has been such a major part of the lives of people who are very careful about their health that it is no wonder that it is one of the most popular of natural healthy drinks going in the world today

The ancient Chinese preferred going without food rather than forfeit their cup of refreshing Cha That is because tea was such a major part of Chinese culture in ancient times that tea drinking ceremonies which were then adapted by Japan were a major part of the social fabric Even today there are exotic teas which are going for thousands of dollars on the auction table because they are considered to be such rare distinguished and exotic beverages Of the three major beverages of the world tea is definitely the most popular Cha is a word which is recognized all over the world especially when one demands something refreshing to drink after a hard days work at the office or sitting doing that hard days work in the office History of Tea Historically tea has been assimilated in the social fabric for millenniums Serendipity has a great hand in the knowledge of tea like that of coffee Coffee was supposedly found by a shepherd who had seen his goats eating some berries off a bush and then acting in a very enthusiastic and frisky manner In the same way tea was supposedly discovered by a Chinese Emperor more than 3000 years ago He was sitting in his garden and a few leaves of a fragrant camellia bush accidentally fell into a cauldron of boiling water in the vicinity The resulting fragrance tempted the Emperor to sip this refreshing brew And soon everybody in China was steeping the leaves of the Camellia in hot water and drinking the resulting infusion down It was only later that the proper preparation of tea in the form of drying the leaves fermentation oxidization and other tea preparation methods before it was packaged and sold to the consumers became known globally down the ages The Camellia sinensis plant is normally used for the preparation of green tea The tea available in the market is normally found in 3 forms black tea green tea and oolong tea All these teas are made through different phases of drying and intensity of the fermentation process About 3 billion kgs of tea are consumed all over the world annually of which the major tea drinkers are the Chinese Japanese Indians which come up to 43% of the world population of tea drinkers In ancient Eastern medicine tea has been used as a relaxant and healing drink According to the Chinese drinking lots of tea meant that you would not suffer from stomach problems headaches nervous tension and any other disease of which you could think For the last 4000 years tea has been an important ingredient used to cure people in alternative medicines in the East

*Grandma's Frugal Meals - Easy tips, techniques and old-time dishes for healthy eating* Dueep J. Singh, John Davidson, 2015-01-10

Grandma s Frugal Meals Easy tips techniques and old time dishes for healthy eating Table of Contents Introduction Grandma s Tips for Food Substitutions How to Make Perfect Yogurt Meat Choosing the right meat To Buy Storing Meat Baked Meat Patties Meat patty Variations How to Cure Your Own Hams Other Food Found Outdoors Rhubarb Jelly Sassafras Jelly Dandelion Greens Luncheon Corn Making Traditional Cornpone Corn Cakes Vegetables How to Store Vegetables Preparing Vegetables for Cooking Steaming Vegetables Meat Cooking Frozen Vegetables Cooking Canned Vegetables How to Prepare Salads Tossed Salads Cole Slaw Coleslaw Dressing What Is Salad Dressing Potato Salad Potato Salad Dressing Traditional Mayonnaise Conclusion Author Bio Publisher Introduction Knowing what to cook was as important as knowing how to cook for grandma She also learned how to make the best of whatever was in front of her from her grandmother and so on for centuries

Millenniums ago her ancestors when gathering in the woods for herbs and vegetables while the menfolk of the family trapped and hunted for meat game and anything else edible and delicious It was then grandma s many times great grandmother s job to make all these ingredients into something delicious and healthy as well as palatable and nourishing So she used her instinct and her creativity to make delicacies with the ingredients available at hand Although science fiction already has stories about scientists making complete little nutritional packages in the shape of pills that are going to take the shape of food in the coming centuries we are very fortunate that we do not have to face that sort of blandness in our meals today We still have the good fortune of going to the nearest market or the nearest organic garden and collecting fresh greens as well as herbs We have plenty of fresh meat at hand And best of all we have all the ingredients to make good wholesome food We only hope judging by the pleasure most of us get from eating the preparation cooking and serving of this nutritious food is going to be a human activity which is going to be around for a long time But most of us cannot afford to have some of the more exotic ingredients of which we dream Either they are not available to us in our city Or perhaps they are beyond our budget Unfortunately for a large percentage of people all over the world budget constraints are the reason why they have to make do with makeshift meals instead of eating what nature intended for them good wholesome natural ingredients Grandma was a frugal person She lived in a time when the dollars earned by grandpa had to be stretched in such a manner that the whole family could be fed and fed well Times changed and times of prosperity came along and the eating habits of the whole family changed Instead of two or three healthy meals in a day there was food aplenty and the whole family could now afford to eat whatever they wanted whenever they wanted and in large quantities This naturally gave rise to problems including obesity Also by not regulating the meal intake as well as the quality of the meals the quality of the general health of grandma s children deteriorated as time went by However the circle of financial constraints has gone and come around again and the time for tightening belts and looking at our budgets has become the top priority A majority of us all over the world again are looking for ways and means in which we can get the proper nutrition in the form of proteins vitamins minerals and energy which our bodies required to keep functioning in a healthy manner *Market Growers Journal* ,1925 Starting and
