Research Summary

In this study, we examine the interaction between race, gender, and risk assessment score on risk for recidivism. We used the Youth Level of Service/Case Management Inventory (YLS/CMI) to measure criminogenic risk among a sample of delinquent youth. The results of multivariate Cox regression revealed a significant interaction between race, gender, and risk score when predicting recidivism. The findings indicated that the slope of the relationship between risk score and recidivism differed significantly for Black youth as compared with White youth and that this interaction was even more pronounced for the subsample of males. These findings suggest that there may be social or other policy/enforcement-related factors that increase risk for recidivism for Black youth.

Policy Implications

We found that although there were no differences in overall risk score across White and Black youth, Black males were at increased risk for future recidivism. These findings

Juvenile Risk and Needs Assessment Christopher J. Sullivan, Kristina K. Childs, 2021-09-14 This book takes a comprehensive analytic approach to understanding Juvenile Risk and Needs Assessment (JRNA) covering elements relevant to how the practice affects youths' cases and the juvenile justice system. The work draws on both analysis of the extensive research on risk and needs assessment in the juvenile justice system as well as data from the authors' recent work in the area. Authors Sullivan and Childs have extensive experience in teaching about and doing research on the juvenile justice system including multiple studies on juvenile risk and needs assessment tools and their implementation. This expansive integrative book leaves readers with a realistic sense of where things stand on the theory, research, policy, and practice of JRNA. By bringing together existing ideas and assessing them in depth, it identifies possible future paths and sparks ideas for improving the juvenile justice response to delinquent and at-risk youths. Juvenile Risk and Needs Assessment is essential reading for scholars of the juvenile justice system's impact and reform as well as practitioners engaged in youth and juvenile justice work ranging from the preventive to the rehabilitative stages.

Handbook on Risk and Need Assessment Faye Taxman, 2016-11-10 The Handbook on Risk and Need Assessment: Theory and Practice covers risk assessments for individuals being considered for parole or probation. Evidence-based approaches to such decisions help take the emotion and politics out of community corrections. As the United States begins to back away from ineffective, expensive policies of mass incarceration, this handbook will provide the resources needed to help ensure both public safety and the effective rehabilitation of offenders. The ASC Division on Corrections Sentencing Handbook Series will publish volumes on topics ranging from violence risk assessment to specialty courts for drug users, veterans, or the mentally ill. Each thematic volume focuses on a single topical issue that intersects with corrections and sentencing research.

A Handbook for Evidence-Based Juvenile Justice Systems James C. Howell, Mark W. Lipsey, John J. Wilson, Megan Q. Howell, Nancy J. Hodges, 2019-09-18 This revised edition features updated research, new developments in technology, and recent policy on juvenile delinquency and youth violence. The authors underscore the enormous payoff in targeting potential serious violent and chronic juvenile offenders at the earliest opportunity and provide a framework for evidence-informed state juvenile justice systems. The Comprehensive Strategy for Serious Violent and Chronic Juvenile Offenders. This strategy recognizes first that a relatively small proportion of those who enter the juvenile justice system will prove to be serious violent or chronic offenders, but that group accounts for a large proportion of overall delinquency. Second, this strategy builds on the fact that serious violent or chronic delinquency emerges along developmental pathways, allowing earlier identification of juveniles most at risk for later serious offending. A third component of this approach is effective intervention capable of reducing the recidivism of those juveniles most at risk for further delinquency. This framework emphasizes an evidence-based approach to reducing the recidivism of those juveniles most likely to reoffend, from intake onward to probation, community programs, confinement, and reentry.

The Changing Borders of Juvenile Justice Jeffrey Fagan, Franklin E. Zimring, 2000-09 Since the 1960s recurring cycles of political activism over youth crime have motivated efforts to remove adolescents from the juvenile court Periodic surges of crime youth violence in the 1970s the spread of gangs in the 1980s and more recently epidemic gun violence and drug related crime have spurred laws and policies aimed at narrowing the reach of the juvenile court Despite declining juvenile crime rates every state in the country has increased the number of youths tried and punished as adults Research in this area has not kept pace with these legislative developments There has never been a detailed sociolegal analytic book devoted to this topic In this important collection researchers discuss policy substantive procedural and empirical dimensions of waivers and where the boundaries of the courts lie Part 1 provides an overview of the origins and development of law and contemporary policy on the jurisdiction of adolescents Part 2 examines the effects of jurisdictional shifts Part 3 offers valuable insight into the developmental and psychological aspects of current and future reforms Contributors Donna Bishop Richard Bonnie M A Bortner Elizabeth Cauffman Linda Frost Clausel Robert O Dawson Jeffrey Fagan Barry Feld Charles Frazier Thomas Grisso Darnell Hawkins James C Howell Akiva Liberman Richard Redding Simon Singer Laurence Steinberg David Tanenhaus Marjorie Zatz and Franklin E Zimring **The ^AMyth of the Community Fix** Sarah D. In *The Myth of the Community Fix* Sarah D Cate explores the consequences of the widespread bipartisan embrace of the community based reform movement in the juvenile justice system Using a qualitative comparative case study focused on Texas California and Pennsylvania she traces the historical development of juvenile justice policy and the limitations of the community based reform movement As Cate shows the current community based reform movement has led to a number of negative consequences particularly for racial minorities and working class youth By contextualizing the community based reform movement as part of the broader shift away from the centralized provision of public goods in the United States this book demonstrates why those committed to addressing the problems of mass incarceration should be wary of the community fix

Early Psychological Research Contributions from Women of Color, Volume 2 Rihana Shiri Mason, Jon E. Grahe, Michelle L. Ceynar, 2024-07-29

This volume serves as a companion to *Early Psychological Research Contributions from Women of Color Volume I*. It focuses on the dissertations of 20 builders women of color who earned their doctoral degrees in psychology prior to 1990 and who were leaders in the field through their leadership or innovation. An introductory chapter bridges the two volumes. Each subsequent chapter summarizes and examines a dissertation using a consistent format including a biographical sketch of the builder with an emphasis on her significant contribution to an organization or innovation that moved the field forward, a summary of the dissertation, a reproducibility critique of the dissertation and an alternative framework section that analyzes the dissertation from a modern theoretical perspective or methodological approach e.g. feminist theory, liberation psychology, mestiza consciousness etc. The topics cover the breadth of the discipline of psychology including physiological, cognitive, developmental, social and clinical. Some topics are also relevant to business, education, medicine and social work. The varying nature of these dissertations allows the book to be used to augment coursework either as a complete collection or as individual chapters. This volume is intended for both instructors and students. The course activities provide examples of how to integrate key aspects of the dissertation research into the classroom. The volume was written with upper level undergraduate students in mind so that it could be used across the psychology curriculum but the editors envision this book as a potential graduate level text as well.
