

Transition Plan for ASD children from preschool to kindergarten.

Dr Bheemalah, Anil Kumar,
Graduate Student, UW Madison, psychEDU@yopmail.com

Abstract:

A systematic survey of quantitative assessments of preschool children with autism spectrum is presented as representing their identity as an independent culture with a right to live in the mainstream world, accepted as they are. This calls for an assessment of social, communicative and locomotion motor skills and the minimal comprehension and cognitive skills needed to inhabit this world with the minimal accommodations. Stakeholders in a transition and the mainstream IEP are identified with a cautionary note on the inadequacies of a curricular approach in IEP, in lieu of alternative schooling. Holistic approaches from the Himalayan viewpoint, and other viewpoints of informal Catholic, Islamic, Judaist, Buddhist, Vedic and other major theologies are presented for alternative schooling as a transition strategy.

Keywords: Alternative schooling, transition strategy, stakeholders, quantitative methods.

Introduction.

A formal curricular education from preschool , marks a learning path termed s-coolie or scoolie by the author, denoting a life long trajectory of learning and transition for normal and autistic individuals. While more normal scoolies, end up in a technological slavery, they end up in 30 year bondages to mortgages and automotive financing, and increased materialism, with the American Dream of success defined in a high paying career and a two garage home, with two or more automobiles, taking decades to own.

With this mindset, expectations are set for a preschool autistic child with this definition of

Supporting Children's Well-Being During Early Childhood Transition to School Tatalović Vorkapić, Sanja, LoCasale-Crouch, Jennifer, 2020-10-23 Life transitions differ concerning the intensity of the change and the intensity of the child's reaction to that change. For most children the first and most significant transition is from the family home to an institution of early care and education which includes preschool. These transitions can also include children's passage from kindergarten to elementary school. However the intensity of the child's reaction is related to the size of the change that is happening and also to who or what is involved in that change and the importance a child attributes to that someone or something. *Supporting Children's Well-Being During Early Childhood Transition to School* is an essential scholarly publication that examines evidence-based practices and approaches that fully support a child's well-being during transition periods in early childhood. It serves as a resource to rethink contemporary transition theoretical models, research studies, and applied practices. Featuring a wide range of topics such as emotional competency, language learners, and professional development, this book is ideal for academicians, psychologists, early childhood educators, daycare centers, curriculum designers, policymakers, researchers, education professionals, and students.

Kindergarten Readiness Nancy Cappelloni, 2013 The hard truth: Some kids aren't as ready for kindergarten as others dictated in part by their socioeconomic background and prior learning experiences. And unless we can provide the support these kids need early on, there's a risk they may never catch up. That's where *Kindergarten Readiness* steps in. It's a ready guidebook to help you equip our youngest students for formal schooling. Covering everything from involving parents to creating developmentally appropriate curriculum, this book will help you understand the complexities of the transition to kindergarten. Implement a successful program of instruction and assessment appropriate for children with various abilities. Align your lessons with Common Core kindergarten standards. Assess young children's skills and abilities. Tailor your program to enrich learning for all students. Filled with authentic photos and tools for practice, this is one of the rare resources to combine the latest research with immediately useable ideas and professional development support.
