*Text Complexity and Reading Comprehension Tests* Erik Castello, 2008 Based on the analysis of a specially compiled corpus of internationally recognized English as a foreign language EFL reading tests at different levels of proficiency this volume explores the relation between the complexity of written texts and the difficulty of reading comprehension tests It brings together linguistic investigations into the text inherent complexity of the tests and a study of the data derived from their administration to groups of Italian university students The study of text complexity draws on corpus linguistics text linguistics and systemic functional linguistics Both quantitative and qualitative analyses are carried out on the language used in the reading texts and in the related tasks that make up the corpus of tests The assessment of test difficulty on the other hand is informed by research on language testing and in particular by findings and methodologies of Classical Test Theory and Item Response Theory Relevant aspects of these theories are used to analyze and interpret both the data obtained from the administration of the tests and the data collected by means of feedback questionnaires completed by test takers The application of such diverse methodologies and the subsequent comparison of the results of the analyses has brought out interesting correlations between text inherent complexity perceived test difficulty and actual test difficulty

*Examining Listening* Ardeshir Geranpayeh, Lynda B. Taylor, 2013-03-27 This volume examines the nature of second language listening proficiency and how it can be assessed The book highlights the need for test developers to provide a clear explication of the ability constructs which underpin the tests they offer in the public domain This is increasingly necessary if claims about the validity of test score interpretation and use are to be supported both logically and with empirical evidence It operationalises a comprehensive test validation framework which adopts a socio cognitive perspective The framework embraces six core components examining and then analysing Cambridge ESOL listening tasks from the following perspectives Test Taker Cognitive Validity Context Validity Scoring Validity Criterion related Validity and Consequential Validity

*English Language Education and Assessment* David Coniam, 2014-07-06 This volume gathers contributions in the closely linked fields of English language assessment and language education The contributors from China and Hong Kong represent a mixture of established and new scholars Areas covered in the language education section range across major developments in the redefining of Hong Kong's secondary and tertiary curricula as well as the huge field of China's vocational education curriculum Regarding assessment the contributions reflect major changes in the marking of examinations in Hong Kong whereby all examinations from 2012 onwards are marked onscreen to quality control issues in the administration of China's College English Test which is taken by over 10 million candidates every year
