Rocco,2022-03-25 **Teaching and Learning in Saudi Arabia** Amani K Hamdan,2015-12-01 Saudi Arabia is witnessing unprecedented progress in the field of higher education Even though the country opened its first university in 1957 so far there seems to be little English scholarly writing about Saudi education in general and higher education in particular The current expansion of Saudi Arabia s higher education system has put a spotlight on this serious gap in the international literature This book helps to fill this lacuna through the work of 16 scholars who have contributed to the development of the Saudi education system In so doing the book reveals areas where more research is required and thus provides a useful starting point for education scholars This anthology is unique in that it is the first to offer a comprehensive perspective on

the current knowledge base pertaining to Saudi higher education as well as to the ongoing efforts to introduce reforms

Mechanical Thrombectomy and Development of Thrombectomy Devices Ichiro Yuki, Juyi Chueh, 2024-01-24 Today mechanical thrombectomy plays an essential role in treating stroke related to major vessel occlusion. The device technology has been evolving in the past decade from the first generation device of clot retriever Merci Clot Retrieval System to stent retrievers and aspiration catheters. With the quality of aspiration catheters improving every year, the treatment strategy has been changing dramatically. Therefore, to improve the efficacy and safety of the new generation devices, preclinical evaluation of the prototype devices using experimental models under the imaging guidance becomes crucial. Various experimental models have been proposed by investigators for the simulation of mechanical thrombectomy. For instance, patient specific silicon models based on the 3D reconstruction of vessel segments, clinically representative artificial clot models with various compositional and mechanical features (e.g. fibrin rich clot, erythrocyte rich clot or mixture of each) and animal models using swine, ovine and canine.

Qualitative and Nutritional Improvement of Cereal-Based Foods and Beverages Antonella Pasqualone, Carmine Summo, 2021-06-09 Increased consumer awareness of the effects of food in preventing nutrient related diseases and maintaining physical and mental well being has made nutritional improvement an important goal for the food and beverage industry including the cereal sector. The book *Qualitative and Nutritional Improvement of Cereal Based Foods and Beverages* collects research articles aimed at exploring innovative ways to improve cereal based foods and beverages, an old if not ancient group of products which are still on our table every day. The main directions of research aimed at nutritional improvement have to face either excess or deficiency in the diet. To this end, different strategies may be adopted such as the reformulation of products, the introduction of functional ingredients and the application of biotechnologies to increase the bioavailability of bioactive compounds. These interventions however can alter the physico chemical and sensory properties of

final products making it necessary to achieve a balance between nutritional and quality modification This book offers readers information on innovative ways to improve cereal based foods and beverages useful for researchers and for industry operators
