Honorable Ryan Zinke
Secretary
U.S. Department of the Interior
1849 C. Street NW
Washington, D.C. 20240

Dear Secretary Zinke:

As members of several of the Department of the Interior's Resource Advisory Committees (RACs), we are writing to request the immediate reinstatement of RAC meetings in order to ensure ongoing public input regarding the management of our public lands. This is particularly important in light of your recent announcement of an expedited comment period for all of the national monument designations currently under review. We believe it is inappropriate to cancel an essential mechanism for public input and oversight in advance of a massive call for public input.

As you know, the Department of the Interior (DOI) recently cancelled all RAC activities nationwide without any explanation, guidance, or further information for members of the public. Our limited understanding is that the purpose of this cancellation is for the Administration to review all public advisory bodies and functions currently in place at DOI. While we appreciate the need to ensure DOI has appropriate mechanisms for public input, we are deeply concerned that cancelling all public advisory committee activities until further notice fundamentally undermines trust in the public process, and eliminates a vital opportunity for public input in the management of our public lands.

RACs are composed of a broad cross-section of the local public, with members representing interests ranging from mineral resources, livestock grazing, and wild horses to conservation, recreation and archaeology, as well as seats for tribes and the public-at-large.

These advisory bodies serve multiple key purposes. First, they serve as mechanisms for BLM and other agencies to communicate regularly and substantively with representatives of the public, sharing important information, providing more in-depth education on issues through field trips and presentations by issue experts, and fielding questions. Second, they serve as mechanisms for representatives of the public to share what they have learned with their communities. Third, they serve as mechanisms for representatives of the public to provide perspectives on behalf of their communities that inform and educate BLM and other agencies about the local public's concerns and priorities. This interaction helps bridge the gap between DOI and members of the public, making RACs a valuable tool for public engagement and dialogue.

RAC members represent diverse public interests, engage in thoughtful debate, and provide meaningful management recommendations to the BLM and other land management agencies with local perspective. As a result, RACs have made invaluable contributions over the last two
