Reckoning Day Jacqueline Foertsch, 2013-08-30 Too often lost in our understanding of the American Cold War crisis with its nuclear brinkmanship and global political chess game is the simultaneous crisis on the nation's racial front *Reckoning Day* is the first book to examine the relationship of African Americans to the atom bomb in postwar America It tells the wide ranging story of African Americans response to the atomic threat in the postwar period It examines the anti nuclear writing and activism of major figures such as W E B Du Bois Rev Dr Martin Luther King Jr and Lorraine Hansberry as well as the placement or absence of black characters in white authored doomsday fiction and nonfiction Author Jacqueline Foertsch analyzes the work of African American thinkers activists writers journalists filmmakers and musical performers in the atomic decades of 1945 to 1965 and beyond Her book tells the dynamic story of commitment and interdependence as these major figures spoke with force and eloquence for nuclear disarmament just as they argued unassailably for racial equality on numerous other occasions Foertsch also examines the placement of African American characters in white authored doomsday novels science fiction and survivalist nonfiction such as government sponsored forecasts regarding post nuclear survival In these black characters are often displaced or absented entirely in doomsday narratives they are excluded from executive decision making and the stories often triumphant conclusions in the nonfiction they are rarely envisioned

amongst the typical American survivors charged with rebuilding US society Throughout Reckoning Day issues of placement and positioning provide the conceptual framework abandoned at ground zero America's inner cities during the height of the atomic threat African Americans were figured in white authored survival fiction as compliant servants aiding white victory over atomic adversity while as historical figures they were often perceived as elsewhere indifferent to the atomic threat In fact African Americans position on the bomb was rarely one of silence or indifference Ranging from appreciation to disdain to vigorous opposition atomic era African Americans developed diverse and meaningful positions on the bomb and made essential contributions to a remarkably American dialogue

Representations of Anne Frank in American Literature

Rachael McLennan, 2016-08-05 This book explores portrayals of Anne Frank in American literature where she is often invoked if problematically as a means of encouraging readers to think widely about persecution genocide and victimisation often in relation to gender ethnicity and race It shows how literary representations of Anne Frank in America over the past 50 years reflect the continued dominance of the American dramatic adaptations of Frank's Diary in the 1950s and argues that authors feel compelled to engage with the problematic elements of these adaptations and their iconic power At the same time though literary representations of Frank are associated with the adaptations critics often assume that these texts unquestioningly perpetuate the problems with the adaptations This is not true This book examines how American authors represent Frank in order to negotiate difficult questions relating to representation of the Holocaust in America and in order to consider gender coming of age and forms of inequality in American culture in various historical moments and of course to consider the ways Frank herself is represented in America This book argues that the most compelling representations of Frank in American literature are alert to their own limitations and may caution against making Frank a universal symbol of goodness or setting up too easy identifications with her It will be of great interest to researchers and students of Frank the Holocaust in American fiction and culture gender studies life writing young adult fiction and ethics

The Perfect Response

Gary C. Woodward, 2010-09-20 The Perfect Response is a lucid account of the social origins of fluency from a scholar recognized as a leading analyst of the dramaturgical dimensions of politics In this imaginative study Gary C Woodward creates and elucidates the idea of The Rhetorical Personality using a deft blend of communication theory social history and rhetorical criticism With unusual capacities for expressiveness persuasiveness and sensitivity Rhetorical Personalities thrive in settings that call for communication that will transcend differences and engage others They typically have a heightened sense of their own persuasive power a skill for reading audiences and the capacity to function effectively in unfamiliar settings Each chapter of The Perfect Response probes the nature of these uniquely social persons from a different perspective through the sympathetic characters of a prolific Hollywood filmmaker by examining the nature of the social isolation in individuals with autism spectrum disorders through cross cultural comparisons and by assessing seminal and recent social science research on key benchmarks of rhetorical skill such as high self monitoring other direction and the
