

Student Sheet

Activity 1.1b – Earthquakes and Waves

Directions: Glue the numbers of the waves and fill in the table below. Each wave has

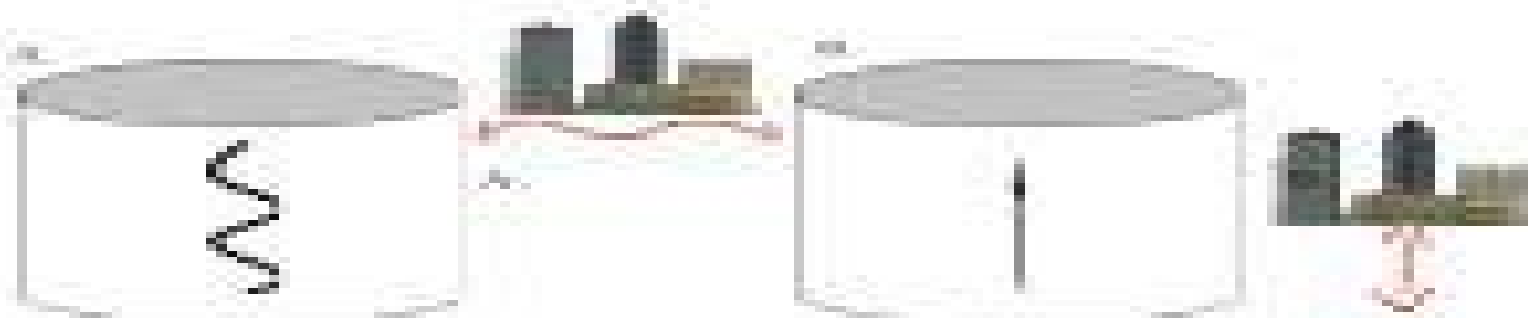

Type of earthquake wave	Direction that particles are moving
Longitudinal wave (Compressional or P-wave)	
Transverse wave (Shear or S-wave)	

Waves recorded

Type of earthquake wave	Time for wave to travel 1000 km to the station – each earthquake recorded			
	Wave A	Wave B	Wave C	Wave D
P-wave	85	71	61	716
S-wave	65	63	45	576

Answer the following questions:

- Which of the earthquake waves travels fastest?
- Which waves are compressional waves? Are seismic displacement parallel?
- Find the epicenter location. Indicate on the map the fault rupture of the quake. Assume the station is at 0 degrees. (Remember the faulting, focus and epicenter record might occur through several days' activity.)
