Non-Judicial Remedies and EU Administration Paola Chirulli,Luca De Lucia,2021-03-11 The increasing number of executive tasks assigned to EU institutions and agencies has resulted in a greater demand for justice that can no longer be

satisfied by the courts alone This has led to the development of a wide range of administrative remedies that have become a central part of the EU administrative justice system This book examines the important theoretical and practical issues raised by this phenomenon The work focuses on five administrative remedies internal review administrative appeals to the Commission against decisions of executive and decentralised agencies independent administrative review of decisions of decentralised agencies complaints to the EU Ombudsman and complaints to the EU Data Protection Supervisor The research rests on the idea that there is a complex and at times ambivalent relationship between administrative remedies and the varying degrees of autonomy of EU institutions and bodies offices and agencies The work draws on legislation internal rules of executive bodies administrative practices and specific case law data and statistics This empirical approach helps to unveil the true dynamics present within these procedures and demonstrates that whilst administrative remedies may improve the relationship between individuals and the EU administration their interplay with administrative autonomy might lead to a risk of fragmentation and incoherence in the EU administrative justice system *Materials Experience 2* Owain

Pedgley, Valentina Rognoli, Elvin Karana, 2021-09-23 *Materials Experience 2* Expanding Territories of Materials and Design is the follow up companion to *Materials Experience* published in 2014 *Materials experience* as a concept has evolved substantially and is now mobilized to incorporate new ways of thinking and designing Through all new peer reviewed chapters and project write ups the book presents critical perspectives on new and emerging relationships between designers materials and artifacts Subtitled *Expanding Territories of Materials and Design* the book examines in depth the increased prevalence of material driven design practices as well as the changing role of materials themselves toward active and influential agents within and outside design processes The book is essential reading for anyone involved in materials and design containing 11 authoritative chapters and 18 illustrated accounts of contemporary research projects and practices Presents both the knowledge and understanding of what new and emerging materials are where they come from and how they can be used effectively in design Looks at how the professional responsibility of material selection is evolving into a more complex and active role of material creation and appropriation Explores how an elevated sensitivity to materials influence people s experiences of the designed world
