Federal Register ,2012-06 The Chemical News and Journal of Physical Science ,1904 **Chemical News and Journal of Physical Science** ,1883 *Milestones and Millstones* Otto N. Larsen,2019-01-22 From the 1960s onwards the clothing industry in the Netherlands and elsewhere in the European Union experienced a deep crisis Numerous went bankrupt and even more so workers lost their jobs Imports from low wage countries started providing the bulk of retailers collections Something Incredibly Wonderful Happens K.C. Cole,2024-05-31 How do we reclaim our innate enchantment with the world And how can we turn our natural curiosity into a deep abiding love for knowledge Frank Oppenheimer the younger brother of the physicist J Robert Oppenheimer was captivated by these questions and used his own intellectual inquisitiveness to found the Exploratorium a powerfully influential museum of human awareness in San Francisco that encourages play creativity and discovery all in the name of understanding In this elegant biography K C Cole investigates the man behind the museum with sharp insight and deep sympathy The Oppenheims were a family with great wealth and education and Frank like his older brother pursued a career in physics But while Robert was unceasingly ambitious and eventually came to be known for his work on the atomic bomb Frank s path as a scientist was much less conventional His brief fling with the Communist Party cost him his position at the University of Minnesota and he subsequently spent a decade ranching in Colorado before returning to teaching Once back in the lab however Frank found himself moved to create something to make the world meaningful after the bombing of Hiroshima and Nagasaki He was inspired by European science museums and he developed a dream of teaching Americans about science through participatory museums Thus was born the magical world of the Exploratorium forever revolutionizing not only the way we experience museums but also science education for years to come Cole has brought this charismatic and dynamic figure to life with vibrant prose and rich insight into Oppenheimer as both a scientist and an individual *General memoranda and oral evidence* India. Calcutta University Commission, 1917-1919,1919 *NASA Technical Memorandum* ,1994 Nuclear Science Abstracts ,1961 Evidence and documents: general memoranda and oral evidence India. Calcutta University Commission,1919 **Millennial Biology: The National Science Foundation and American Biology, 1975-2005** Donald J. McGraw,2021-01-25 National Science Foundation NSF is a unique federal agency because it supports scientific research financially but does not engage in scientific work itself Its history is known only in part because the NSF is a vibrant expanding and living entity that makes the final telling of its story impossible Much can be learned from its beginning as well as its component parts If the founding of the NSF in 1950 was couched in an era of physics especially atomic physics certainly by the end of the 20th century and the beginning of the 21st biology was and remains the queen of sciences for the predictable future This book highlights the elite status of America s biological sciences as they were funded affected and to a very real degree interactively guided by the NSF It examines important events in the earlier history of the Foundation because they play strongly upon the development

of the various biology directorates Issues such as education applied research medical science the National Institutes of Health the beginnings of biotechnology and other matters are also discussed

Report: Evidence and documents: general memoranda and oral evidence India. Calcutta University Commission,1919 Waves on Beaches and Resulting Sediment Transport R. E. Meyer,2013-09-24 Waves on Beaches and Resulting Sediment Transport documents the proceedings of an Advanced Seminar held in October 1971 aiming to offer a coherent interdisciplinary view of the state of physical research in coastal oceanography and the direction in which this subject is moving The articles range from wave refraction to littoral erosion and the authors from geologists to mathematicians The book opens with a study on the characteristics of wave records in the coastal zone This is followed by separate chapters on sediment transport in beaches equations for water waves small amplitude normal oscillations of a liquid body and wave behavior near caustics in models and in nature Subsequent chapters deal with nonlinear wave interaction in a variety of physical phenomena including deep water waves the study of longshore currents sediment suspension by periodic waves forms of sediment accumulation in the beach zone run up on beaches and the wave breaking process in shallow water

Transnational Perspectives on Curriculum History Gary McCulloch,Ivor Goodson,Mariano González-Delgado,2019-11-22 This book offers a remarkable range of research that emphasises the need to analyse the shaping of curricula under historical social and political variables Teachers life stories the Cold War as a contextual element that framed curricular transformations in the US and Europe and the study of trends in education policy at transnational level are issues addressed throughout The book presents new lines of work offering multidisciplinary perspectives and provides an overview of how to move forwards The book brings together the work of international specialists on Curriculum History and presents research that offers new perspectives and methodologies from which to approach the study of the History of Education and Educational Policy It offers new debates which rethink the historical study of the curriculum and offers a strong interdisciplinary approach with contributions across Education History and the Social Sciences This book will be of great interest for academics and researchers in the fields of education and curriculum studies It will also appeal to educational professionals teachers and policy makers

Stratospheric Ozone and Man Frank A. Bower,2018-01-10 The book as originally conceived was to be limited to technical considerations but the scientific course of event has been so interwoven with non scientific but nevertheless related events the authors felt necessary to include an account of this situation Accordingly the book is divided into five sections

entitled Stratospheric ozone Atmospheric processes influencing stratospheric ozone Does man influence stratospheric ozone Effects and research Public policy *Tax Court Memorandum Decisions* Commerce Clearing House, United States. Tax Court, 1968 Contains the full texts of all Tax Court decisions entered from Oct 24 1942 to date with case table and topical index *A History of Scientific Journals* Aileen Fyfe, Noah Moxham, Julie McDougall-Waters, Camilla Mørk Røstvik, 2022-10-03 Modern scientific research has changed so much since Isaac Newton's day it is more professional collaborative and international with more complicated equipment and a more diverse community of researchers Yet the use of scientific journals to report share and store results is a thread that runs through the history of science from Newton's day to ours Scientific journals are now central to academic research and careers Their editorial and peer review processes act as a check on new claims and findings and researchers build their careers on the list of journal articles they have published The journal that reported Newton's optical experiments still exists First published in 1665 and now fully digital the Philosophical Transactions has carried papers by Charles Darwin Dorothy Hodgkin and Stephen Hawking It is now one of eleven journals published by the Royal Society of London Unrivalled insights from the Royal Society's comprehensive archives have enabled the authors to investigate more than 350 years of scientific journal publishing The editorial management business practices and financial difficulties of the Philosophical Transactions and its sibling Proceedings reveal the meaning and purpose of journals in a changing scientific community At a time when we are surrounded by calls to reform the academic publishing system it has never been more urgent that we understand its history *The History of Oxford University Press: Volume IV* Keith Robbins, 2017-05-26 The story of Oxford University Press spans five centuries of printing and publishing Beginning with the first presses set up in Oxford in the fifteenth century and the later establishment of a university printing house it leads through the publication of bibles scholarly works and the Oxford English Dictionary to a twentieth century expansion that created the largest university press in the world playing a part in research education and language learning in more than 50 countries With access to extensive archives the four volume History of OUP traces the impact of long term changes in printing technology and the business of publishing It also considers the effects of wider trends in education reading and scholarship in international trade and the spreading influence of the English language and in cultural and social history both in Oxford and through its presence around the world In the decades after 1970 Oxford University Press met new challenges but also a period of unprecedented growth In this concluding volume Keith Robbins and 21 expert contributors assess OUP's changing structure its academic mission and its business operations through years of economic turbulence and continuous technological change The Press repositioned itself after 1970 it brought its London Business to Oxford closed its Printing House and rapidly developed new publishing for English language teaching in regions far beyond its traditional markets Yet in an increasingly competitive worldwide industry OUP remained the department of a major British university sharing its commitment to excellence in scholarship and education The resulting opportunities and sometimes tensions are traced here

through detailed consideration of OUP's business decisions the vast range of its publications and the dynamic role of its overseas offices. Concluding in 2004 with new forms of digital publishing, *The History of OUP* sheds new light on the cultural, educational and business life of the English-speaking world in the late twentieth century.
