Migrant Workers in the Gulf Roger Owen, Nicholas Van Hear, 1992-04-01 The oil price explosion of the early 1970s triggered off a massive wave of labour migration into the oil rich states of the Gulf The migrants came from the poorer Arab countries from Asia and Africa attracted by wage levels considerably higher than they could earn in their homelands Some came on short term contracts others stayed many years By the end of the 1980s there were thought to be over six million migrant workers in the region Migrant Workers in the Gulf for the first time provides a concise overview of the situation of these new migrant workers Written by Dr Roger Owen it gives a valuable insight into the problems and the pressures they face The report also contains an MRG Update by Dr Nicholas Van Hear outlining the mass population movements in the early 1990s About two million foreign residents left Iraq and Kuwait in the aftermath of the Iraqi invasion of Kuwait 800 000 Yemenis were pressured to leave Saudi Arabia while in 1991 persecution of Kuwait s long established Palestinian community by the newly restored rulers led to their mass exodus The report poses vital questions Can the rights of migrant workers be protected Can mass population movements be prevented in the future What should be the role of the UN and the international community This unique report should be of immense value to all those interested in the social and economic history of the Middle East and Asia and to policy makers concerned with migration labour and mass movements of people worldwide Please note that the terminology in the fields of minority rights and indigenous peoples rights has changed over time MRG strives to reflect these changes as well as respect the right to self identification on the part of minorities and indigenous peoples At the same time after over 50 years work we know that our archive is of considerable interest to activists and researchers Therefore we make available as much of our back catalogue as possible while being aware that the language used may not reflect current thinking on these issues

Migration Michael Samers, Michael Collyer, 2016-12-08 While the subject of migration has received enormous attention in academic journals and books across the social sciences introductory texts on the matter are few and far between Even fewer books have explored migration through a critical and explicit engagement with spatial concepts Now in its second edition Migration remains the only text in more than a decade that emphasizes how geographical or spatial concepts can be used critically to understand migration The multi disciplinary text draws on insights from human geography political science social anthropology sociology and to a lesser extent economics All of the chapters focus on key terms theories concepts and issues concerning migration and immigration The book argues that in the context of migration two opposing spatial positions have emerged in the wake of the critique of methodological nationalism On one hand is the significance of transnationalism and on the other the importance of sub national or local processes Both require more nuance and integration while many of the concepts and theories which have thus far neglected space or have not been treated spatially need to be re written with space in mind Pedagogically the text combines a carefully defined structure accessible language boxes that explore case studies of migrant related experiences in particular places annotated suggestions for further reading useful websites and relevant films and summary questions for student learning at

the end of each chapter Migration provides a critical multi disciplinary advanced and theoretically informed introduction to migration and immigration Revised and updated with new material new maps and illustrations and an accompanying website <https://migration2ndedition.wordpress.com> it continues to be aimed at advanced undergraduates and Masters level graduate students undertaking courses on migration and immigration Alexander's Nursing Practice E-Book Ian Peate, 2019-08-20
