The Sacredness of the Person Hans Joas, 2013-02-19 What are the origins of the idea of human rights and universal human dignity How can we most fully understand and realize these rights going into the future In *The Sacredness of the Person* internationally renowned sociologist and social theorist Hans Joas tells a story that differs from conventional narratives by tracing the concept of human rights back to the Judeo Christian tradition or alternately to the secular French Enlightenment While drawing on sociologists such as mile Durkheim Max Weber and Ernst Troeltsch Joas sets out a new path proposing an affirmative genealogy in which human rights are the result of a process of sacralization of every human being According to Joas every single human being has increasingly been viewed as sacred He discusses the abolition of torture and slavery once common practice in the pre 18th century west as two milestones in modern human history The author concludes by portraying the emergence of the UN Declaration of Human Rights of 1948 as a successful process of value generalization Joas demonstrates that the history of human rights cannot adequately be described as a history of ideas

or as legal history but as a complex transformation in which diverse cultural traditions had to be articulated legally codified and assimilated into practices of everyday life The sacralization of the person and universal human rights will only be secure in the future warns Joas through continued support by institutions and society vigorous discourse in their defense and their incarnation in everyday life and practice *Resources in Education* ,1999 Dissecting Cannibal Holocaust Nathan Wardinski,2024-04-15 Since its 1980 release the Italian horror film Cannibal Holocaust has shocked viewers and provoked censors with its graphic imagery and unrelenting nihilism Following a summary of the story and the controversy over its release *Dissecting Cannibal Holocaust* examines the film s relevance to cinematic and literary history anthropology nature studies ethics and censorship media and journalism documentary filmmaking representations of cannibalism and post colonialism and genre cinema The book also addresses some of the most frequent criticisms of Cannibal Holocaust including its depictions of native people and the inclusion of real life animal killings Matching the audacity of the film itself *Dissecting Cannibal Holocaust* makes provocative arguments about the influence of corporate media the purpose of art the relationship between industrialized and indigenous people the amorality of nature and the roots of violence *CliffsNotes AP European History Cram Plan* Malcolm Mafi,2017-11-14 The perfect AP European History test prep solution for last minute studying This new edition of *CliffsNotes AP European History Cram Plan* calendarizes a study plan for the 107 000 annual AP European History test takers depending on how much time they have left before they take the May exam Features of this plan to ace the exam product include 2 month study calendar and 1 month study calendar Diagnostic exam that helps test takers pinpoint strengths and weaknesses Subject reviews that include test tips and chapter end quizzes Full length model practice exam with answers and explanations **Healing the Schism** Jennifer M.
