## **Sex And Character English Edition:**

**Sex and Character** Otto Weininger, 2005-04-14 Otto Weininger's controversial book *Sex and Character* first published in Vienna in 1903 is a prime example of the conflicting discourses central to its time: antisemitism, scientific racism, and biologism; misogyny, the cult and crisis of masculinity, psychological introspection versus empiricism, German idealism, the women's movement, and the idea of human emancipation; the quest for sexual liberation and the debates about homosexuality. Combining rational reasoning with irrational outbursts in the context of today's scholarship, *Sex and Character* speaks to issues of gender, race, cultural identity, the roots of Nazism, and the intellectual history of modernism and modern European culture. This new translation presents for the first time the entire text, including Weininger's extensive appendix with amplifications of the text and bibliographical references, in a reliable English translation together with a substantial introduction that places the book in its cultural and historical context. *Sex & Character; Authorised Translation from the Sixth German Edition* Otto Weininger, 2025-08-31 Reproduction of the original. The Antigonos publishing house specialises in the publication of reprints of historical books. We make sure that these works are made available to the public in good condition in order to preserve their cultural heritage. *Sexual Desire* Roger Scruton, 2006-03-05 A dazzling treatise as erudite and eloquent as Simone de Beauvoir's *The Second Sex* and considerably more sound in its conclusion. TLS He is an eloquent and practised writer. The Independent UK When John desires Mary or Mary desires John, what does either of them want? What is meant by innocence, passion, love, and arousal, desire, perversion, and shame? These are just a few of the questions Roger Scruton addresses in this thought-provoking intellectual adventure. Beginning from purely philosophical premises and ranging over human life and institutions, he surveys the entire field of sexuality, equally dissatisfied with puritanism and permissiveness; he argues for a radical break with recent theories. Upholding traditional morality, though in terms that may shock many of its practitioners, his argument gravitates to that which is candid, serene, and consoling in the experience of sexual love. Bloodlust Russell Jacoby, 2011-04-05 THROUGHOUT HISTORY AND ACROSS CULTURES the most common form of violence is that between family members and neighbors or kindred communities in civil wars, writ large and small. From assault to genocide, from assassination to massacre, violence usually emerges from inside the fold. You have more to fear from a spouse, an ex-spouse, or a coworker than you do from someone you don't know. In this brilliant polemic, Russell Jacoby argues that violence erupts most often and most savagely between those of us most closely related. An Indian nationalist assassinated Mohandas Gandhi, the father of India. An Egyptian Muslim assassinated Anwar Sadat, the president of Egypt and a recipient of the Nobel Peace Prize. An Israeli Jew assassinated Yitzhak Rabin, the Israeli prime minister, and similarly a recipient of the Nobel Peace Prize. Genocide most often involves kindred groups. The German Christians of the 1930s were so closely intertwined with German Jews that a yellow star was required to tell the groups apart. Serbs and Muslims in Bosnia, like the Hutu and Tutsi in Rwanda, are often indistinguishable even to one another. This idea contradicts both common sense

and the collective wisdom of teachers and preachers who declaim that we fear and sometimes should fear the other the dangerous stranger Citizens and scholars alike believe that enemies lurk in the street and beyond where we confront a clash of civilizations with foreigners who challenge our way of life Jacoby offers a more unsettling truth it is not so much the unknown that threatens us but the known We attack our brothers our kin our acquaintances our neighbors with far greater regularity and venom than we attack outsiders Weaving together the biblical story of Cain and Abel Freud's narcissism of minor differences insights on anti-Semitism and misogyny as well as fresh analyses of civil bloodbaths from the St Bartholomew's Day Massacre in the sixteenth century to genocide and terrorism in our own time Jacoby turns history inside out to offer a provocative new understanding of violent confrontation over the centuries In thinking about the bad we reach for the good he says in his Introduction This passionate counterintuitive account affords us an unprecedented insight into the roots of violence

**Seeing Mahler: Music and the Language of Antisemitism in Fin-de-Siècle Vienna** K.M. Knittel, 2016-04-01 No one doubts that Gustav Mahler's tenure at the Vienna Court Opera from 1897-1907 was made extremely unpleasant by the antisemitic press The great biographer Henry Louis de La Grange acknowledges that it must be said that antisemitism was a permanent feature of Viennese life Unfortunately the focus on blatant references to Jewishness has obscured the extent to which ordinary attitudes about Jewish difference were prevalent and pervasive yet subtle and covert The context has been lost wherein such coded references to Jewishness would have been immediately recognized and understood By painstakingly reconstructing the language of antisemitism Knittel recreates what Mahler's audiences expected saw and heard given the biases and beliefs of turn of the century Vienna Using newspaper reviews cartoons and memoirs Knittel eschews focusing on hostile discussions and overt attacks in themselves rather revealing how and to what extent authors call attention to Mahler's Jewishness with more subtle language She specifically examines the reviews of Mahler's Viennese symphonic premieres for their resonance with that language as codified by Richard Wagner though not invented by him An entire chapter is also devoted to the Viennese premieres of Richard Strauss's tone poems as a proof text against which the reviews of Mahler can also be read and understood Accepting how deeply embedded this way of thinking was not just for critics but for the general population certainly does not imply that one can find antisemitism under every stone What Knittel suggests ultimately is that much of early criticism was unease rather than objective reactions to Mahler's music a new perspective that allows for a re-evaluation of what makes his music unique thought provoking and valuable

Love, Sexuality, and Matriarchy Erich Fromm, 2024-02-27 A fascinating collection of essays on the complicated relations between men and women from the New York Times bestselling author of *The Art of Loving* The New York Times Book Review The renowned social psychologist delves deep into the fraught relationship between genders drawing upon the influential insights of Bachofen Freud Marx and Briffault Not primarily interested in the

existence of anatomical and biological differences between the sexes Fromm instead analyzes how these differences have been made use of throughout human history Drawing from Bachofen s Mother Right Fromm expounds on how matriarchal and patriarchal social structures determine relations between the sexes in essential ways and how they are shaped by the dominant orientation of the social character at any given time He posits that the most important question concerning gender relations is which characterological orientation determines human relationships love or hate love of life or fascination with force Thus it will not be gender conflict that will determine humanity s future but whether we opt for love of life or love of death As these essays show Fromm was a wide ranging thinker whose writings sometimes manifested brilliant insights or practical wisdom Kirkus Reviews      *The Gender Vendors* A. L. Jones,2014-08-26 Among numerous ancient Western tropes about gender and procreation the seed and the soil is arguably the oldest most potent and most invisible in its apparent naturalness *The Gender Vendors* denaturalizes this proto theory of procreation and deconstructs its contemporary legacy As metaphor for gender and procreation seed and soil constructs the father as the sole generating parent and the mother as nurturing medium like soil for the man s seed child In other words men give life women merely give birth *The Gender Vendors* examines seed and soil in the context of the psychology of gender honor and chastity codes female genital mutilation the taboo on male femininity femiphobia the fear of being feminine or feminized sexual violence institutionalized abuse the early modern witch hunts the medicalization and criminalization of gender nonconformity and campaigns against women s rights The examination is structured around particular watersheds in the history of seed and soil for example Genesis ancient Greece early Christianity the medieval Church the early modern European witch hunts and the campaigns of the nineteenth and twentieth centuries against women s suffrage and education The neglected story of seed and soil matters to everyone who cares about gender equality and why it is taking so long to achieve      *The Bounds of Race* Dominick LaCapra,2018-08-06 The concept of race is central to one of the most powerful ideological formations in history Dominick LaCapra argues in his introduction to this volume and understanding the effects of that ideology and its intricate relations with issues of class and gender is one of the most pressing challenges to contemporary modes of thought The eleven essays comprising *The Bounds of Race* confront this challenge with insight rigor and imagination The authors take on questions of language genre and politics with reference to African American Anglo American African South African Francophone North African British and Afro Hispanic texts Individual chapters discuss writings from an array of genres including homily autobiography the novel children s literature and political and scientific discourse Taken together the essays argue persuasively that the existing canon must be expanded that the protocols of interpretation must be transformed to make a prominent place for such issues as race and that the problem of interpretation cannot be posed in the absence of theoretically informed modes of historical investigation *The Bounds of Race* provides a subtle analysis of the variable role of racial ideologies and traces the interplay between hegemonic constraints and the strategies of resistance to them      **Dora**

**Marsden and Early Modernism** Bruce Clarke, 1996 Arguing that Marsden's contributions have been neglected and misunderstood *Dora Marsden and Early Modernism* seeks to restore Marsden to her proper status as one of the major influences on modern British and American literature as well as the early literary sensibilities of D H Lawrence Ezra Pound and William Carlos Williams

**Gender, Sex and Translation** Jose Santaemilia, 2015-12-08 Gendered and sexual identities are unstable constructions which reveal a great deal about the ideologies and power relationships affecting individuals and societies The interaction between gender sex studies and translation studies points to a fascinating arena of discursive conflict in which our intimate desires and identities are established or rejected re negotiated or censored sanctioned or tabooed This volume explores diverse and heterogeneous aspects of the manipulation of gendered and sexual identities Contributors examine translation as a feminist practice and or theory the importance of gender related context in translation the creation of a female image of secondariness through dubbing and state censorship attempts to suppress the blatantly patriarchal and sexist references in the German dubbed versions of James Bond films the construction of national heroism and national identity as male preserve the enactment of Chamberlain's gender metaphors in Scliar and Calvino the transformation of Japanese romance fiction through Harlequin translations the translations of the erotic as site for testing the complex rewritings of identity in sociohistorical term and the emergence of NRTs New Reproductive Technologies which is causing fundamental changes in the perception of creativity or procreation as male domains
