Journal ,1927 *Industrial & Commercial South Africa and Storekeepers' Review* ,1922 *Plant-Fire Interactions* Víctor Resco de Dios,2020-03-17 This book provides a unique exploration of the inter relationships between the science of plant environmental responses and the understanding and management of forest fires It bridges the gap between plant ecologists interested in the functional and evolutionary consequences of fire in ecosystems with foresters and fire managers interested in effectively reducing fire hazard and damage This innovation in this study lies in its focus on the physiological responses of plants that are of relevance for predicting forest fire risk behaviour and management It covers the evolutionary trade offs in the resistance of plants to fire and drought and its implications for predicting fuel moisture and fire risk the importance of floristics and plant traits in interaction with landform and atmospheric conditions to successfully predict fire behaviour and provides recommendations for pre and post fire management in relation with the functional composition of the community

The book will be particularly focused on examples from Mediterranean environments but the underlying principles will be of broader utility **State Formation After Civil War** Derek M Powell,2016-08-05 State formation after civil war offers a new model for studying the formation of the state in a national peace transition as an integrated national phenomenon Current models of peacebuilding and state building limit that possibility reproducing a fragmented selective view of this complex reality Placing too much emphasis on state building as design they place too little on understanding state formation as unplanned historical process The dominant focus on national institutions also ignores the role that cities and civic polities have played in constituting the modern state Mining ideas from many disciplines and evidence from 19 peace processes including South Africa the book argues that the starting point for building a systematic theory is to explain a distinct pattern to state formation that can be observed in practice Despite their conflicts people in fragile societies bargain terms for peaceful coexistence they make attempts to constitute the right to rule as valid state authority in circumstances prone to conflict over which they have imperfect influence not control Though the kind of institutions created will differ with context how rules for state authority are institutionalized follows a consistent basic pattern That pattern defines state formation in peace transitions as both a unified if contingent field of normative practice and an object of comparative study Where the national centric models see local government as a matter belonging to policy on decentralization for later in the reconstruction phase the book uncovers a distinct local government dimension to peace transitions A civic dimension to national conflicts that must be explained incipient or proto local authorities that emerge even during civil war in peace

making after state collapse the fact that it is common for peace agreements and constitutions to include rules for local authority for local elections to be held as part of broader democratization and for laws to be enacted to establish local government as part of peace compacts The book develops the concept of local peace transition to explain the distinctive constitutive role of this local dimension in peace making and state formation This path breaking book will be of compelling interest to practitioners scholars and students of comparative constitutional studies international law peace building and state building The Medical Press and Circular ,1896 *Cricket Performance Management* Hemanta Saikia,Dibyoyoti Bhattacharjee,Diganta Mukherjee,2019-11-26 This book focuses on the application of data mining techniques in cricket It provides detailed examples of how data mining can be helpful for decision making in sports with special reference to cricket particularly the quantitative features related to Twenty20 cricket the latest and the most popular format of the game The book highlights the performance quantification of cricketers batsmen bowlers all rounders and wicket keepers determining the market valuation of cricketers based on their on field performances and the effect of age on the performance of the cricketers It also provides a comprehensive overview of the different aspects of the game where quantitative techniques are beneficial and highlights the use of statistical and data mining tools in analysing sports related data and objective decision making in sports The book appeals to a wide readership including postgraduate students of statistics mathematics data analysts sports management bodies It also offers data miners such as researchers in statistics mathematics operations research and computer science ideas for projects
