The Scottish Jurist, 1835 Christian Doctrine Geoff Thompson, 2020-02-20 Geoff Thompson addresses multiple questions concerning Christian doctrine in an engaging narrative beginning with an in depth discussion of the origins of doctrine in the various catechetical polemical and apologetic pressures that the church encountered as it sought to articulate and teach its confession of faith in Jesus Christ In providing an overview of some of the classic and historically influential doctrinal projects Thompson employs ten case studies that illustrate the overlapping influences of tradition and contexts both ecclesial and cultural on doctrinal discourse Thompson takes the reader from those historical and paradigmatic case studies into some of the great contemporary debates about doctrine including those which have been shaped by the critique of doctrine associated with the European Enlightenment as well as the challenges and contributions of theologians of the majority world He pays particular attention to the influence that these diverse cultural ecclesial and academic contexts have had upon the shape and content of particular doctrines This leads into an engagement with George Lindbeck's seminal *The Nature of Doctrine* as well as the more recent proposals of Kevin Vanhoozer and Christine Helmer This guide concludes by developing the idea of a Christian social imaginary as the framework for holding together doctrine practice truth diversity and context
