Aiken-Wisniewski, Deborah J. Taub, Rich Whitney, 2023-07-03 Authors Sharon Aiken Wisniewski Rich Whitney and Deborah Taub have done a great service to student affairs and to student learning and development with this fine book The Missing Competency A Program Development Model for Student Affairs The profession owes them great appreciation for returning the foundational competency of programming to our collective attention and providing a contemporary model to implement programs of quality From the foreword by Susan R Komives Program development is central to the work of student affairs professionals yet the field has not prioritized the development of competency in this area This theory to practice sequential guide to program development fills that gap in the literature The authors describe the elements of program planning and delivery from the inception of the idea through the use of assessment to revise and improve the program for the future Whether a new professional or a seasoned leader this volume offers the reader a deeper understanding of program development Starting with a foundational understanding of this process the book proceeds to a step by step process taking a program from an idea to a proposal with goals objectives budget and timeline with tasks and beyond planning to implementation The book concludes with stressing the importance of assessment as the program continues to develop over

time Each chapter applies program development concepts through program examples Finally the authors leave readers with tools and templates to support the process

Seven Skills of Media Literacy W. James Potter, 2019-08-12 In *Seven Skills of Media Literacy* best selling author and renowned scholar W James Potter provides readers with the practical guidance they need to make substantial improvements on seven major skills required to increase their media literacy For each of these seven skills Potter provides easy to follow algorithms and heuristics that structure the process of using the skill Chapters also offer many exercises to help readers practice using these algorithms and heuristics while avoiding traps in thinking The book is organized to guide readers progressively through the sequence of media literacy skills starting with the most fundamental and building to the more complex skills This book is a must read for those people serious about becoming more strategic in using the media to satisfy their own needs for information and entertainment and thereby avoid being exploited by media messages

**Learning and Work** Charles N. Darrah, 2013-04-11 This volume examines how employees in two manufacturing concerns perceive and perform their jobs and how the workplace influences employees thinking Based on extensive fieldwork the book describes and explores the experiences of daily work Workers are observed as they interpret instructions and deal with often contradictory expectations and ambiguous information The study shows that this process is far more complex than the one portrayed in discussions of skill requirements by managers expert analysts and many educators The book demonstrates that workplaces impart lessons that are at least as powerful as those conveyed in training programs and other official activities It explores how people acquire an organizational world view that enables them to interpret the rules of the workplace and to perform appropriately The book also examines how the new worker becomes part of a dynamic community of co workers Ethnographic descriptions document variations in the experiences of different workers and the strategies they adopt The picture that emerges challenges widely held assumptions about the importance of skill requirements at work and the presumed inadequacy of ordinary people to work effectively This book is especially timely as the nation seeks to reform education to better meet the demands of increased competition and to address domestic concerns about preparing people for employment A bibliography of references is included
