countries mesoscale e.g. different institutions and microscale e.g. specific learner groups. The book consists of four thematic strands. In Part One the learner internal causes of heterogeneity of young language learners are clarified. Part Two presents a sample of classroom studies in which learner variables such as gender, learner preferences and special needs are taken into account. Part Three looks at teaching materials and how they meet learners' needs. Finally, Part Four highlights diversity issues that teachers should be prepared to face.

*Learning without Fear* Julia Stead, 2019-06-19. In *Learning without Fear*, a practical toolkit for developing growth mindset in the early years and primary classroom, Julia Stead and Ruchi Sabharwal provide teachers of this age group with a colourful collection of strategies and resources designed to nurture young learners' resilience and learning capabilities. Having a growth mindset can really empower young learners to take risks to extend and deepen their learning. There is, however, more to it than simply adding 'yet' to 'I can't do this'. In *Learning without Fear*, Julia and Ruchi tackle this misconception head-on, combining bite-sized theory with the practical tools and techniques that will enable teachers to map out their pupils' growth mindset journey from the early years up to their departure for the challenges of secondary school. Together, they share tried and tested lesson ideas, questionnaires, and examples of outstanding practice taken from their own very successful classrooms, all colourfully packaged into a complete toolkit that illustrates both the why and the how of successfully embedding growth mindset in early years and primary settings. The book begins with a discussion of the benefits of instilling the traits and attitudes of a growth mindset early on in a learner's life and presents a selection of mini-stories that serve as simple springboards into exploring the mindset of young learners. The full-colour illustrations that accompany the stories are also available as free downloads for teachers' own use in the classroom. To help educators boost their pupils' engagement and empower them to visualise a route to success, Julia and Ruchi advocate employing the analogy of a learning journey from Stuck Island to Got It City. This involves navigating Challenge Ocean, and the authors make this voyage more achievable by providing a survival kit of learning techniques designed to encourage pupils to take ownership in the face of struggle and to use metacognitive devices when tackling tricky tasks. The book's comprehensive series of 39 lesson ideas, one

for every week of the school year are tagged with symbols to help teachers seek out activities suitable for their desired lesson focus pupil groupings time allocation and age range and there is also a chapter dedicated to the ways in which the children's progress can be assessed Suitable for both newly qualified and experienced teachers of learners aged 3 to 11 *Learning without Fear* was highly commended in the professional books category of the Nursery World Awards 2020 Writing Children's Fiction Linda Newbery, Yvonne Coppard, 2013-08-22 Full of both inspirational and practical advice *Writing Children's Fiction A Writers and Artists Companion* is an essential guide to writing for some of the most difficult and demanding readers of all children and young people Part 1 explores the nature history and challenges of children's literature and the amazing variety of genres available for children from those learning to read to young adults Part 2 includes tips by such bestselling authors as David Almond Malorie Blackman Meg Rosoff and Michael Morpurgo Part 3 contains practical advice from shaping plots and creating characters to knowing your readers handling difficult subjects and how to find an agent and publisher when your book or story is complete *Seeing Sense* Jake Hope, 2020-07-24 Foreword by Sir Philip Pullman CBE FRSL Illustrated foreword by Chris Riddell OBE The burgeoning field of visual literacy can be universally understood across a wide variety of cultural backgrounds regardless of traditional literacy levels A key tool for navigating digital devices there is often an antipathy surrounding visual literacy borne out of stigma and at times intimidation *Seeing Sense* brings together research and best practice from different organisations and institutions all over the world to showcase the role of visual literacy as a tool for promoting reading It will be key in raising awareness among librarians and education practitioners promoting aspiration and achievement among the children and young people they work with Coverage includes an overview of visual literacy as a tool for reading development the role of visual literacy in design and display within libraries and resource centres advice for library and information professionals on how to gain greater confidence in using and understanding visual literacy as part of strategies to engage readers a number of practical case studies to illustrate the power and potency of visual literacy as a key tool for making reading accessible engaging and appealing for all A to Zoo Rebecca L.
