has predominantly focused on men who buy sex or women who engage in romance tourism in places such as the Caribbean this innovative research offers new and original insights into the demand side of commercial sex Too often it is assumed that only men pay for sex from women or other men Women are assumed to be service providers and are unimaginable as clients This book therefore offers a radical departure from existing scholarship on commercial sex In addition the book examines the experiences of couples who pay for commercial sex a client group that has received scant investigation The book explores women s reasons for their engagement in commercial sex services their backgrounds and characteristics their strategies for remaining safe and managing potential risks as well as their sexual health strategies The nature of sexual service bookings with women clients is also examined exploring the types of services women seek the places where bookings occur and the fees they pay Finally the experiences of men women and trans sex workers who provide sexual services to women are examined By drawing on our unique data and comparing it to the literature on men clients we present our theory Converging Sexualities We argue that commercial sex is a site of behavioural convergence and that women clients are behaving in ways that could be described as masculine or feminine Our study therefore offers new ways to understand sexuality This book will be of interest to researchers in the field of sexuality sex work and women s behaviour
