

How to Extend a View Object in OA Framework R12

View Object extensions in R12 are possible but inherently buggy. I've performed several but was not able to post a "bug-free" entry until now. This thread will show how to get through all the wizards and successfully deploy a VO extension in R12. Some of the steps are redundant and designed to avoid errors that the JDev IDE might throw. Hence, the product is not free of bugs but it can be used to complete an extension. For information on how to perform VO extensions in prior releases of Oracle Applications, see this article:

The View Object selected for this exercise is from the Employee Directory functionality in Oracle Applications. Log in to an R12 instance and click the Employee Directory link in the upper-right hand corner.

Search for the Oracle Hack:

Once the detail appears, click the About this Page link in the lower left-hand corner. The page definition will appear....click Expand All and note the View Object (VO) name next to the detail attributes:
