Rccg Uk Sunday School Manual 2013:

Nigerian Pentecostalism and Development Richard Burgess, 2020-04-06 This book examines the contributions both intentional and unintentional of Nigerian Pentecostal churches and NGOs to development studying their development practices broadly in relation to the intersecting spheres of politics economics health education human rights and peacebuilding In sub Saharan Africa Pentecostalism is fast becoming the dominant expression of Christianity but while the growth and civic engagement of these churches has been well documented their role in development has received less attention The Nigerian Pentecostal landscape is one of the most vibrant in Africa Churches are increasingly assuming more prominent roles as they seek to address the social and moral ills of contemporary society often in fierce competition with Islam for dominance in Nigerian public space Some scholars suggest that the combination of an enchanted worldview an emphasis on miracles and prosperity teaching and a preoccupation with evangelism discourages effective political engagement and militates against development However Nigerian Pentecostalism and Development argues that there is an emerging movement within contemporary Nigerian Pentecostalism which is becoming increasingly active in development practices This book goes on to explore the increasingly transnational approach that churches take often seeking to build multicultural congregations around the globe for instance in Britain and the United States Nigerian Pentecostalism and Development Spirit Power and Transformation will be of considerable interest to scholars and students concerned with the intersection between religion and development and to development practitioners and policy makers working in the region

Global Religious Movements Across Borders Stephen M. Cherry, Helen Rose Ebaugh, 2016-04-22 From global missionizing among proselytic faiths to mass migration through religious diasporas religion has traveled from one side of the world and back again It continues to play a prominent role in shaping world politics and has been a vital force in the continued emergence spread and creation of a transnational civil society Exploring how religious roots are shaping organizations that seek to aid people across political and geographic boundaries service movements this book focuses on how religious movements establish structures to assist people with basic human needs such as food clothing shelter education and health Examining a multitude of faith traditions with origins in different parts of the world seven contributing chapters with an introduction and conclusions by the senior author offer a unique discussion of the intersections between religious transnationalism and social movements
